UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

**ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**
For the fiscal year ended September 30, 2015

Commission file number: 1-12997

MAXIMUS, INC.

(Exact name of registrant as specified in its charter)

Virginia
(State or other jurisdiction of
incorporation or organization)

54-1000588
(I.R.S. Employer
Identification No.)

**1891 Metro Center Drive, Reston,
Virginia**
(Address of principal executive offices)

20190
(Zip Code)

Registrant's telephone number, including area code: **(703) 251-8500**

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
Common Stock, no par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a
smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of outstanding voting stock held by non-affiliates of the registrant as of March 31, 2015 was \$4,308,922,065 based on the last reported sale price of the registrant's Common Stock on The New York Stock Exchange as of the close of business on that day.

There were 65,334,671 shares of the registrant's Common Stock outstanding as of November 6, 2015.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement for its 2016 Annual Meeting of Shareholders to be held on March 16, 2016, which definitive Proxy Statement will be filed with the Securities and Exchange Commission not later than 120 days after the end of the registrant's fiscal year, are incorporated by reference into Part III of this Form 10-K.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Included in this Annual Report on Form 10-K are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current expectations, estimates, forecasts and projections about our Company, the industry in which we operate and other matters, as well as management's beliefs and assumptions and other statements that are not historical facts. Words such as "anticipate," "believe," "could," "expect," "estimate," "intend," "may," "opportunity," "plan," "potential," "project," "should," "will" and similar expressions are intended to identify forward-looking statements and convey uncertainty of future events or outcomes. These statements are not guarantees and involve risks, uncertainties and assumptions that are difficult to predict. Actual outcomes and results may differ materially from such forward-looking statements due to a number of factors, including without limitation:

- a failure to meet performance requirements in our contracts, which might lead to contract termination and liquidated damages;
- the outcome of reviews or audits, which might result in financial penalties and reduce our ability to respond to invitations for new work;
- the effects of future legislative or government budgetary and spending changes;
- difficulties in integrating acquired businesses;
- a failure to comply with laws governing our business, which might result in the Company being subject to fines, penalties and other sanctions;
- our failure to successfully bid for and accurately price contracts to generate our desired profit;
- our ability to maintain relationships with key government entities from whom a substantial portion of our revenue is derived;
- the ability of government customers to terminate contracts on short notice, with or without cause;
- our ability to manage capital investments and start-up costs incurred before receiving related contract payments;
- our ability to maintain technology systems and otherwise protect confidential or protected information;
- the costs and outcome of litigation;
- matters related to business we have disposed of or divested; and
- other factors set forth in Exhibit 99.1 of this Annual Report on Form 10-K under the caption "Special Considerations and Risk Factors."

As a result of these and other factors, our past financial performance should not be relied on as an indication of future performance. Additionally, we caution investors not to place undue reliance on any forward-looking statements as these statements speak only as of the date when made. Except as otherwise required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether resulting from new information, future events or otherwise.

PART I

ITEM 1. *Business.*

Throughout this annual report, the terms "MAXIMUS," "Company," "we," "our" and "us" refer to MAXIMUS, Inc. and its subsidiaries.

General

We provide business process services (BPS) to government health and human services agencies under our mission of *Helping Government Serve the People*.[®] We are one of the largest pure-play health and human services BPS providers to governments in the United States, the United Kingdom, Australia, Canada, Saudi Arabia and New Zealand. We use our experience, business process management expertise and advanced technological solutions to help government agencies run efficient and cost-effective programs. Our solutions improve program accountability and outcomes, while enhancing the quality of services provided to program beneficiaries.

Over the past five years, our revenue and earnings have grown primarily as a result of demographic, economic and legislative trends. These trends drive demand for services from providers, such as MAXIMUS, who can provide efficient and cost-effective solutions to problems, including:

- A need for governments to manage budgets in the face of increasing demands for social services;
- Aging populations that place a greater strain on health care and welfare systems;
- A global demand for social services that are based upon measurable outcomes; and
- Legislative initiatives, such as the Affordable Care Act (ACA) or welfare reform efforts in the U.K., which require the implementation of new services and new programs.

With our proven track record and expertise, we are in a strong position to provide these services. We believe that we bring the right combination of people, business processes and technology to deliver the best-value solution to governments. Our success has allowed us to gain market share in the areas in which we operate. As a result, we are:

- The largest provider of Medicaid enrollment and the Children's Health Insurance Program (CHIP) services in the U.S.;
- A leading operator of U.S. health insurance exchange customer contact centers, with services provided to six entities operating state-based exchanges and a customer contact center for the federal marketplace;
- The largest provider of government-sponsored health benefit appeals and assessments in the U.S. and the U.K.;
- One of the largest providers of occupational health services in the U.K.;
- One of the largest providers of disability and long-term sick support services in the U.K.; and
- An established provider of welfare-to-work services throughout all of our geographies, including the U.S., the U.K., Australia, Canada, Saudi Arabia and New Zealand.

We also pursue selective acquisitions to enhance and expand our offerings or geographic presence.

- In 2015, we acquired Acentia, LLC (Acentia), a provider of system modernization, software development, program management and other information technology services to the U.S. Federal Government.
- In 2015, we acquired Remploy, a leading provider of disability employment services in the U.K.

[Table of Contents](#)

- In 2013, we acquired Health Management Limited, a leading provider of independent medical assessments in the U.K.
- In 2012, we acquired Policy Studies, Inc., a provider of health and human services operations in the U.S.

Much of our revenue is derived from long-term contractual arrangements with governments. Base contracts are typically three to five years and often have additional option periods, which provide good visibility in terms of predicting revenue. Most of our contracts are related to programs that are long-term in nature, such as Medicaid, Medicare, Social Security, the ACA and long-term employment support programs. Our client relationships are frequently decades long.

Our business segments

The Company is organized and managed based on the services we provide.

As our business changes, we revise our internal reporting and the manner in which our Chief Executive Officer operates and reviews the results of our business. This reporting forms the basis for our external reporting of our business segments. During the fourth quarter of fiscal year 2015, we revised our reporting structure to accommodate three business segments, adding a U.S. Federal Services Segment that comprises the work we perform for the U.S. Federal Government, as well as some U.S.-based appeals work. The businesses within this new segment were previously included within our Health Services Segment and include the results of the businesses acquired with Acentia in April 2015. We made these changes to our operations and internal reporting due to our acknowledgement that the U.S. Federal Government is a distinct customer with different procurement methods and regulations, the scale of our business with the U.S. Federal Government and the growth of our federal business from a primarily health-focused business to a broader business covering several federal agencies.

For more information on our segment presentation, including comparative revenue, gross profit, operating profit, identifiable assets and related financial information for the 2015, 2014 and 2013 fiscal years, see "Note 2. Business segments" within Item 8 of this Annual Report on Form 10-K, which we incorporate by reference herein.

Health Services Segment

Our Health Services Segment generated 53% of our total revenue in fiscal year 2015.

The Health Services Segment provides a variety of business process services, as well as related consulting services, for state, provincial and national government programs. These programs include Medicaid, CHIP and the ACA in the U.S., Health Insurance BC (British Columbia) in Canada, and the Health Assessment Advisory Service (HAAS) and Fit for Work Service in the U.K. The Segment's services help people access, navigate and use health benefit and other government programs. The Segment also helps governments engage with program recipients, while at the same time helping them to improve the efficiency, cost effectiveness, quality and accountability of their health and disability benefits programs.

Our comprehensive administrative and program operations services for government health benefits programs include:

- Health insurance exchange customer contact center operations and support services;
- Health insurance program eligibility and enrollment services to help beneficiaries make the best choice for their health insurance coverage and improve their access to health care;

[Table of Contents](#)

- Beneficiary outreach and education—including multilingual customer contact centers and multi-channel self-service options, such as Web-based portals—for easy enrollment;
- Application assistance and independent health plan enrollment counseling to beneficiaries;
- Premium payment processing and administration, such as invoicing and reconciliation;
- Health plan oversight; and
- Comprehensive eHealth solutions with the Medigent® product suite.

Our independent health review services include:

- Independent disability, long-term sick and other health assessments; and
- Occupational health clinical assessments.

Our consulting services include:

- Medicaid Management Information System (MMIS) planning, oversight and consulting services; and
- Specialized program consulting services.

The Health Services Segment may experience seasonality due to transaction-based work, such as program open enrollment periods and activity related to contract life cycles. Most notably, the Segment may experience revenue and margin fluctuations associated with the ACA, which provides an open enrollment period that begins in our first fiscal quarter and extends into our second fiscal quarter. The exact dates may be subject to change by the U.S. Federal Government. During the first quarter of our fiscal year, reductions in working days due to holidays and vacations may also impact our sales and accounts receivable, but the effect is generally not significant.

U.S. Federal Services Segment

Our U.S. Federal Services Segment generated 24% of our total revenue in fiscal year 2015.

The U.S. Federal Services Segment provides business process services and program management for large government programs, independent health review and appeals services for both the U.S. Federal Government and similar state-based programs and technology solutions for civilian federal programs.

In this Segment, our comprehensive government program administration services include:

- Centralized customer contact centers and support services;
- Documents and records management; and
- Case management, citizen engagement and consumer education.

Our independent health review services include:

- Independent medical reviews and worker's compensation benefit appeals;
- Health benefit appeals; and
- Eligibility appeals.

Our technology solutions include:

- Modernization of systems and IT infrastructure;
- Infrastructure operations and support;

[Table of Contents](#)

- Software development, operations and management; and
- Data analytics.

The U.S. Federal Services Segment is not expected to experience seasonality related to its programs. However, it may experience fluctuations as a result of program maturity including lower revenue and profitability related to transaction or performance based-contracts during program start-up. Some of the contracts may also be structured as cost-reimbursable, which typically carry the lowest level of risk but also carry lower levels of operating margin.

Human Services Segment

Our Human Services Segment generated 23% of our total revenue in fiscal year 2015.

The Human Services Segment provides national, state and local human services agencies with a variety of business process services and related consulting services for government programs. These programs include welfare-to-work, child support, higher education and K-12 special education. The Segment's services include:

- Comprehensive welfare-to-work services to help disadvantaged individuals transition from government assistance programs to sustainable employment and economic independence, including eligibility determination, case management, job-readiness preparation, job search and employer outreach, job retention and career advancement, and selected educational and training services;
- Full and specialized child support case management services, customer contact center operations, and program and systems consulting services;
- Management tools and professional consulting services for higher education institutions;
- K-12 special education case management solutions;
- Program consulting services, including independent verification and validation, cost allocation plans and other specialized consulting offerings; and
- Tax credit and employer services.

The Human Services Segment is not expected to experience seasonality related to its programs.

Geographic Information

We operate in the U.S., the U.K., Australia, Canada, Saudi Arabia and New Zealand. The distribution of revenue and assets across geographies are included in "Note 2. Business Segments" within Item 8 of this Annual Report on Form 10-K.

Market overview

We expect that demand for our core offerings will continue to increase over the next few years. This is driven principally by macro trends such as new legislation, an increasing interest by governments to implement outcomes-based programs, austerity measures and increasing caseloads, as governments strive to deliver more services with fewer resources. Health and welfare reform initiatives have created increased demand for our services, a trend we expect to continue over the next several years. In addition, we believe there is an increasing propensity by certain governments to use public-private partnerships and seek help from firms like MAXIMUS as a means to run more effective and efficient programs. We believe that we remain well-positioned to benefit from this increasing demand.

Demand for our services is contingent upon factors that affect governments, including:

- The need for governments to deliver efficient, cost-effective services to program beneficiaries while meeting legal requirements and achieving programmatic goals and value for funds spent on social benefits programs;
- The requirement of U.S. state governments to implement federal initiatives and qualify for federal matching funds;
- The impact of continued budgetary pressures, which result in governments having to operate more programs with the same level of resources and/or implement cost-control measures;
- The increased demand for social benefits programs as a result of rising caseloads and demographic trends in many developed countries; and
- The need to improve business processes, push innovations, and update technology for public programs as governments seek outside sources of support to gain needed expertise or to address trends as more public workers become eligible for retirement.

As a result, governments hire companies like MAXIMUS to help them deliver innovative, efficient and cost-effective services to beneficiaries on their behalf. We possess the knowledge and resources to operate government health and human programs efficiently and to engage with program beneficiaries, while maintaining the service levels and achieving the outcomes demanded by our clients. With the ability to balance resources with demand, we also offer the flexibility and scalability that governments do not always possess.

Health Services Market Environment

Over the past decade, health care costs have risen substantially, and this trend is expected to continue. For example, U.S. health care spending, among the highest of all industrialized countries, is increasing at a rate that outpaces inflation and national income growth. Stemming these costs, as well as improving quality and access to health care, is a major policy priority for governments. Governments seek efficient and cost-effective solutions to manage their public health programs. This includes programs meant to support individuals with disabilities and long-term medical conditions, as well as individuals with shorter-term health conditions.

Outside the U.S., many governments are seeking partners to help them manage, administer or operate their social benefits programs. Countries like the U.K. are examining how public health relates to productivity, cost reduction and economic growth. The U.K. Government provides a range of social welfare benefits for people who are unable to work as a result of a disability, long-term illness or other health condition. For individuals with long-term sickness or disabilities, the government requires an independent health assessment provided by a vendor through the Health Assessment Advisory Service to determine an individual's level of benefits. For individuals with shorter-term health conditions, the Government requires an occupational health assessment and general health and work advice provided by a vendor partner through the Fit for Work Service to assist employees referred by employers and general practitioners with a wellness and return-to-work plan. We believe there is continued market demand to conduct independent assessments for participants in public benefit programs and to support employers and their employees through our commercial occupational health services.

In the U.S., as a result of Medicaid expansion and the ACA, many states have made program changes. These changes have occurred most notably through benefit changes and the expansion of managed care to new populations that have historically been served through fee-for-service Medicaid or are now eligible for coverage through the new ACA health insurance exchanges.

[Table of Contents](#)

The ACA expanded access to health coverage primarily through insurance subsidies and Medicaid expansion. States are not required to expand their Medicaid programs, but the Congressional Budget Office estimates that most will expand coverage over the next several years. The Kaiser Family Foundation also estimates that 30 states and the District of Columbia have already expanded Medicaid. The ACA also extends CHIP through 2019, provides increased matching federal funds and guarantees funding through 2015. We currently serve as the administrative vendor for CHIP in six states.

In 2015, certain states and the District of Columbia operated their own exchanges. Other states participate in a partnership model or have opted to use the federal exchange. We currently operate customer contact centers for the District of Columbia and five state-based exchanges, as well as a customer contact center as a subcontractor for the federal marketplace. In 2017, states will have access to the State Innovation Waivers, also known as the 1332 Waivers, which give states the most comprehensive and flexible framework for best using federal funding for their public health insurance programs. As a result, we believe that these waivers may create a more palatable path for additional states to contemplate a shift to a state-based exchange or partnership model over the coming years.

We believe the current health market environment positions us to benefit from continued demand across all of our geographies from service areas such as operations program management and health assessments. Overall, we expect the underlying demand for our services to increase over the next several years.

U.S. Federal Services Market Environment

The U.S. federal market continues to see modest growth after several years of uncertainty due primarily to political struggles around the federal budget and the subsequent reduction of agency budgets. The overall 2016 federal budget for information technology (IT) spend is expected to grow by 1.8 percent while the projected budget for federal IT services shows 2 percent growth.

Through our acquisition of Acentia, we are now a full-service provider of business process services and technology to the U.S. Federal Government. The acquisition also provided 12 new contract vehicles that give us the opportunity to bid on task orders that we were previously unable to bid as a prime contractor. We also have access to new federal agencies, as well as the ability to expand our current portfolio of work with agencies where both companies have existing relationships. Our expanded capabilities allow us to more comprehensively address many of the challenges faced by federal agencies today.

While federal agency budgets still face fiscal pressures, we continue to see opportunities to apply our cost-effective and efficient solutions in the federal market. Federal agencies are tasked with cost-effectively managing programs at a time when changing demographics are leading to rising caseloads in many federal programs, such as Medicare where MAXIMUS provides conflict-free reviews of appeals.

Many federal agencies must also address the maintenance of legacy systems—and the pressing need for infrastructure as IT modernization continues to grow. Legacy processes and systems are fundamental to government operations, yet they are unsustainably expensive to operate in an environment that requires online agility and rapid response to new demands, requirements and global challenges. We are in a prime position to help agencies modernize and operate their mission-critical systems.

[Table of Contents](#)

The implementation of the ACA also continues to impact the federal landscape. The ACA requires an independent, evidence-based external review process and the option for individuals to appeal coverage determinations or claims to insurance companies. We are presently managing the eligibility appeals process for the Federally Facilitated Marketplace and we are one of the largest providers of evidence-based health insurance appeals to Medicare and 48 state agencies. Other key factors that will likely impact the U.S. federal market include a variety of political, economic, social and technological issues:

- A focus on the citizen experience and citizen services, as well as digital services;
- Legacy to modernization through case management;
- Agencies moving from transformation initiatives to operations and maintenance;
- Agencies seeking consolidation and shared services to achieve cost efficiencies;
- Changes in the acquisition and contracting environment, including consolidation of GSA schedules; and
- Limited program and procurement activity ahead of the November 2016 Presidential Election.

Human Services Market Environment

The Human Services market has experienced increased demand driven by the need for governments to reduce costs and improve efficiency of certain social benefits programs. The most dynamic portion of the market is in the welfare-to-work arena where governments worldwide seek program reform as an important component of comprehensive fiscal austerity measures. Certain governments are modeling new welfare reforms after established programs in Australia, the U.K. and the U.S. Variations of these models, with which we have a substantial amount of experience, knowledge and expertise, are being emulated around the world through public-private partnerships, with MAXIMUS being a leading provider. However, the re-engineering of well-established programs like these may take years to adapt to new program models from conceptualization to implementation.

We believe we are well-positioned to compete for these global welfare-to-work opportunities because of our established presence, strong brand recognition, and ability to achieve the requisite performance requirements and outcomes outlined in the new reform measures. We offer clients demonstrated results and decades of proven experience in administering welfare-to-work programs in several states and countries.

We provide comprehensive welfare-to-work case management services throughout the U.S., the U.K., Australia, Canada, Saudi Arabia and New Zealand. In Australia, we are one of the largest and highest rated welfare-to-work providers, with more than 250 locations nationwide. We also have an established presence in the U.K.'s welfare-to-work market and presently provide employment and job training services under the Work Programme, a key component of the coalition government's austerity plan to rein in costly benefits programs and reduce mounting debt.

Through our acquisition of Remploy in the U.K., we have increased our presence in the disability employment services market where we support people with disabilities and health conditions into mainstream employment. We believe these services are transferrable to our other geographies and position us well for emerging trends in the disability services market.

In addition to welfare reform, we have seen an increase in initiatives to use private firms for children's services, such as family maintenance and child support. We currently provide services to the Family Maintenance Enforcement Program in British Columbia, as well as several jurisdictions throughout the U.S., including Shelby County, Tennessee and Baltimore, Maryland, two of the largest child support privatization efforts in the nation.

[Table of Contents](#)

We believe ongoing reform initiatives and measures to reduce costs and improve efficiencies, combined with our outstanding performance, expertise and proven solutions, will continue to drive demand for our core services across multiple geographies.

Our growth strategy

Our goal is to enable future growth by remaining a leading provider of BPS and consulting services to government agencies. The key components of our business growth strategy include the following:

Pursue new business opportunities and expand our customer base. With 40 years of business expertise in the government market, we continue to be a leader in developing innovative solutions to meet the evolving needs of government agencies. We seek to grow our businesses by leveraging our existing core capabilities, consistently delivering the required outcomes for governments to achieve program goals, and pursuing opportunities with new and current clients.

Grow long-term, recurring revenue streams. We seek to enter into long-term relationships with clients to meet their ongoing objectives. As a result, long-term contracts (three to five years with additional option years) are often the preferred method of delivery for customers and provide us with predictable recurring revenue streams. We believe an incumbent has a considerable advantage in recompetes and that customer relationships can last for decades.

Pursue strategic acquisitions. We will selectively identify and pursue strategic acquisitions. Acquisitions can provide us with a rapid and cost-effective method to enhance our services. This includes obtaining additional skill sets, increasing our access to contract vehicles, expanding our customer base, cross-selling additional services, enhancing our technical capabilities, and establishing or expanding our geographic presence.

Continue to optimize our current operations to drive innovation and quality to customers. We continue to seek efficiencies and optimize operations in order to achieve sustainable, profitable growth. We will continue to deliver quality BPS to government clients to improve the cost effectiveness, efficiency and scalability of their programs as they deal with rising demand and increasing caseloads.

Recruit and retain highly skilled professionals. We continually strive to recruit motivated individuals, including top managers from larger organizations, former government officials, consultants experienced in our service areas and recent college graduates with degrees aligned with our mission, such as degrees in government policy and administration. We believe we can continue to attract and retain experienced and educated personnel by capitalizing on our focused market approach and our reputation as a premier government services provider.

Focus on core health, U.S. federal civilian and human services business lines. We have centered our core business offerings on delivering BPS to government health and human services agencies as well as to other civilian agencies within the U.S. Federal Government. Our market focus and established presence positions us to benefit from health care and welfare reform initiatives both in the U.S. and internationally.

See Exhibit 99.1 of this Annual Report on Form 10-K under the caption "Special Considerations and Risk Factors" for information on risks and uncertainties that could affect our business growth strategy.

Competitive advantages

We offer a private sector alternative for the operation and management of critical government-funded health and human services programs. Our reputation and extensive experience give us a competitive advantage as governments value the level of expertise, proven delivery and brand recognition that we bring our customers. The following are the competitive advantages that allow us to capitalize on various market opportunities:

Proven track record, ability to deliver outcomes and exceptional brand recognition. We assist governments in delivering cost-effective services to beneficiaries of government programs. We run large-scale program management operations on behalf of government agencies, improving the quality of services provided to their beneficiaries and achieving the necessary outcomes to help them cost-effectively meet their program goals. This has further enhanced our brand recognition as a proven partner with government agencies.

Subject matter expertise. Our workforce includes many individuals who possess substantial subject matter expertise in areas critical to the successful design, implementation, administration and operation of government health and human services programs. Many of our employees have worked for governments in management positions and can offer insights into how we can best provide valuable, practical and effective services to our clients.

Intellectual property that supports the administration of government programs. We have proprietary solutions to address client requirements in our market that are configurable or provide a platform that can be transferred to meet contractual needs. We leverage commercial off-the-shelf platforms across multiple contracts in which we have considerable expertise to ensure we can deploy repeatable proven solutions. We also leverage software development methodology to shorten software development cycles. Extensive use of shared infrastructure and standard solutions provides considerable price and quality advantages. Management believes our extensive industry focus and expertise embedded in our systems and processes provide us with a competitive advantage.

Flexibility and scalability. We are experienced in launching large-scale operations under compressed time frames. We offer clients the flexibility and scalability to deliver the people, processes and technology to complete short- and long-term contractual assignments in the most efficient and cost-effective manner.

Financial strength. We maintain a strong balance sheet, generate consistent annual cash flow, and have access to a \$400 million revolving credit facility. We possess the financial strength to ensure clients can confidently trust us to safely operate their high-profile public health and human services programs.

Focused portfolio of services. We are one of the largest publicly traded companies that provides a portfolio of BPS specifically to government customers. Our government program expertise and proven ability to deliver defined, measurable outcomes differentiate us from other firms and non-profit organizations. This includes large consulting firms that serve multiple industries and lack the focus necessary to manage the complexities of serving government agencies efficiently.

Established presence outside the United States. Governments outside the U.S. are seeking to improve government-sponsored health and human services programs, manage increasing caseloads, and contain costs. We have an established presence in the U.K., Australia, Canada, Saudi Arabia and New Zealand. Our international efforts are focused on delivering cost effective welfare-to-work and health benefits services to program participants on behalf of governments.

[Table of Contents](#)

Expertise in competitive bidding. Government agencies typically award contracts through a comprehensive, complex and competitive request for proposals (RFP) and bidding process. Although the bidding criteria varies from contract to contract, we believe that typical contracts are awarded based upon a mix of technical solution and price. In some cases, governments award points for past performance tied to program outcomes. With more than 40 years of experience in responding to RFPs, we have the necessary experience and resources to navigate government procurement processes. We possess the expertise and experience to assess and allocate the appropriate resources necessary for successful project completion in accordance with contractual terms.

Our clients

Our primary customers are government agencies, with the majority at the national, provincial and state level and, to a lesser extent, some at the county and municipal level. In the U.S., even when our direct customers are state governments, a significant amount of our revenue is ultimately provided by the U.S. Federal Government in the form of cost-sharing arrangements with the states, such as is the case with Medicaid. In the year ended September 30, 2015, approximately 50% of our total revenue was derived from state government agencies, many of whose programs received significant federal funding, 22% from foreign government agencies, 20% from U.S. federal government agencies, and 8% from other sources including local municipalities and commercial customers.

We were not significantly affected by the shut-down of the U.S. Federal Government in October 2013. Many of our federally funded health and human services programs are typically deemed essential, which means that a short-term shut-down would not be expected to cause significant disruption to these operations. With the acquisition of Acentia's business, our contract portfolio contains services that may be considered discretionary. Therefore, in the event of a shut-down, a portion of our U.S. Federal Services Segment may incur costs with no certainty of recovery. In all cases, an extended delay may affect certain government programs that rely upon federal funding and may also have an effect on our cash flows from operations if payments are delayed.

For the year ended September 30, 2015, we derived approximately 20% of our consolidated revenue from contracts with the U.S. Federal Government, exclusively within our U.S. Federal Services Segment, and approximately 10% from the state of New York, exclusively within our Health Services Segment.

We typically contract with government clients under four primary pricing arrangements: performance-based, cost-plus, fixed-price and time-and-materials. For the year ended September 30, 2015, 44% of our contracts were performance-based, 29% were cost-plus, 21% were fixed-price and 6% were time-and-materials.

Generally, the relationships with our clients are long-term, multi-year contracts that are subject to option years and periodic rebids. See the "Backlog" section below for more details.

Competition

The market for providing our services to government agencies is competitive and subject to rapid change. However, given the specialized nature of our services and the programs we serve, market entry can be difficult for new or inexperienced firms. The complex nature of competitive bidding, the required investment in subject-matter expertise, repeatable processes and support infrastructure, and the need to achieve specific program outcomes creates barriers to entry for potential new competitors unfamiliar with the nature of government procurement.

In the U.S., our primary competitors in the Health Services Segment are Xerox, HP, Automated Health Systems and Fanuel. We consider ourselves to be a significant competitor in the markets in which we operate as we are the largest provider of Medicaid and CHIP administrative programs and operate more state-based health insurance exchanges than any other commercial provider. In the U.S. Federal Services Segment, our primary competitors in the BPS market are Serco, General Dynamics Information Technology and FCI. In the U.S. Federal Services Segment, our primary competitors in the technology sector tend to be IBM, Oracle, SRA and other federal contractors. Our primary competitors in the Human Services Segment vary according to specific business line, but are primarily specialized consulting service providers and local non-profit organizations.

Outside of the U.S., our primary competitors in the Health Services Segment include Atos, Capita, Interserve, Virgin Care and Optum. Our primary competitors in the Human Services Segment include Serco; Ingeus, a Providence Service Company; Staffline; Shaw Trust; Sarina Russon; Advanced Placement Management; and other specialized private companies and non-profit organizations, such as The Salvation Army and Goodwill Industries. Although the basis for competition varies from contract to contract, we believe that typical contracts are awarded based upon a mix of technical solution and price. In some cases, customers award points for past performance tied to program outcomes.

Legislative initiatives

We actively monitor legislative initiatives and respond to opportunities as they develop. Over the past several years, legislative initiatives created new growth opportunities and potential markets for us. Legislation passed in all the geographies in which we operate has significant public policy implications for all levels of government and presents viable business opportunities in the health and human services arena. We are well-positioned to meet the operations program management and consulting needs resulting from that legislation and subsequent regulatory and program implementation efforts.

Some legislative initiatives that have created new growth opportunities for MAXIMUS include:

The Affordable Care Act (ACA). In March 2010, the U.S. Federal Government enacted comprehensive health care reform, known as the ACA, to expand access to health coverage, protect consumer rights, control health care costs and improve the overall health care delivery system. In June 2012, the Supreme Court of the United States upheld the ACA while allowing states to opt out of the previously mandated Medicaid expansion. The law presents several opportunities for MAXIMUS. These include the operation of health insurance exchange operations; Medicaid expansion; the extension of CHIP; the integration of state eligibility processing for entitlement programs; new initiatives for long-term care that allow states more flexibility in Medicaid for home and community-based services; the expansion of independent medical appeals services and the Medicaid demonstration projects for the dual eligible population (people eligible for both Medicaid and Medicare).

Children's Health Insurance Program Reauthorization Act (CHIPRA). CHIPRA was signed into law on February 2, 2009, extending the previous SCHIP program. As part of the ACA, CHIP has been extended through 2019 and funding has been extended through 2015, which is two additional years beyond the original CHIPRA. By expanding state options to find and enroll eligible children through "express lane eligibility" and "auto enrollment," CHIPRA has presented MAXIMUS with an opportunity to expand our partnerships with states for the administration of CHIP programs. The advent of state and federal exchanges at the beginning of 2014 has increased participation of eligible children in CHIP.

Shift to Medicaid Managed Care. As Medicaid programs become larger, more complex and costly, states look to new models. Estimates from the Centers for Medicare & Medicaid Services (CMS) indicate that although the fee-for-service system covers less than half of the total Medicaid population, it accounts for more than 80% of all Medicaid spending. In response, several states have initiatives to reduce the current costs of Medicaid by moving different populations of beneficiaries from fixed-fee-for-service models to managed care, which represents new growth opportunities for MAXIMUS.

[Table of Contents](#)

Work Innovation and Opportunity Act (WIOA). Signed into law in July 2014, WIOA replaces the Workforce Investment Act of 1998 and took effect on July 1, 2015. The law coordinates several core federal employment, training, education and literacy programs. It also requires states to strategically align their workforce development programs, with the option to include TANF (Temporary Assistance for Needy Families), to help job seekers access the necessary support services and to match employers with skilled workers they need to compete in the global economy. WIOA represents potential new opportunities for us to complement our existing TANF welfare-to-work operations in the U.S.

U.K. Health Assessment Advisory Service (formerly known as the Health and Disability Assessment Service). The Welfare Reform Act of 2007 replaced Incapacity Benefits with the Employment and Support Allowance and introduced the Work Capability Assessment (WCA). The WCA was designed to distinguish people who could not work due to health-related problems from people who were 'fit for work' or, with additional support, could eventually return to work. In 2010, the U.K. Government decided to reassess the 2.5 million people who had previously been determined to be eligible to receive Incapacity Benefits. The Government also decided that an independent health assessment provided by a vendor partner is the best method for the Government to determine the level of benefits for individuals with long-term sickness or disabilities. MAXIMUS has been providing assessments through the resulting HAAS on behalf of the Department for Work and Pensions (DWP) since March 2015.

U.K. Fit for Work Service (formerly known as the Health and Work Service). In 2011, the U.K. Government set up a review of the sickness absence system to help reduce the 140 million days lost to sickness absence every year. The review considered how the current sickness absence system could be changed to help people stay in work, reduce costs and contribute to economic growth. One of the outcomes of the study is the Fit for Work Service that provides occupational health assessments and general health and work advice to employees, employers and general practitioners to help people with a health condition to stay in or return to work. MAXIMUS has been operating the Fit for Work Service on behalf of DWP since August 2014.

U.K. Work Programme. The Work Programme is a government-sponsored welfare-to-work model that consolidates several existing employment programs into a single comprehensive back-to-work program in an effort to achieve higher quality, longer-term and sustainable employment outcomes for job seekers in the U.K. The Work Programme presented new opportunities for MAXIMUS and we have been delivering employment services throughout Thames Valley, Hampshire and the Isle of Wight and West London since June 2011 and North East Yorkshire and the Humber since February 2015.

Backlog

At September 30, 2015, we estimate that we had approximately \$4.6 billion of revenue in backlog. Backlog represents an estimate of the remaining future revenue from existing signed base contracts and revenue from contracts that have been formally awarded, but not yet signed. Our backlog estimate includes revenue expected under the current terms of executed contracts and revenue from contracts in which the scope and duration of the services required are not definite but estimable (such as performance-based contracts). Our backlog estimate does not assume any contract renewals or option period exercises.

Increases in backlog result from the award of new contracts, the extension or renewal of existing contracts and the exercise of option periods. Reductions in backlog come from fulfilling contracts or the early termination of contracts. The backlog associated with our performance-based contracts is an estimate based upon management's experience of caseloads and similar transaction volume from which actual results may vary. The Company may modify its estimates related to performance-based contracts and as a result backlog from these contracts may increase or decrease based upon the information that management has at that time.

[Table of Contents](#)

Government contracts typically contain provisions permitting government customers to terminate contracts on short notice, with or without cause.

We believe that period-to-period backlog comparisons are difficult and may not necessarily accurately reflect future revenue we may receive. The actual timing of revenue receipts, if any, on projects included in backlog could change for any of the aforementioned reasons. The dollar amount by segment of our backlog as of September 30, 2015 and 2014 was as follows:

	Backlog as of September 30,	
	2015	2014
	(In millions)	
Health Services	\$ 2,320	\$ 2,330
U.S. Federal Services	832	570
Human Services	1,448	900
Total	<u>\$ 4,600</u>	<u>\$ 3,800</u>

Our BPS businesses typically involve contracts covering a number of years. Once contracts are signed, they typically take three to six months to begin generating revenue. At September 30, 2015, the average weighted life of these contracts was approximately 5 years, including option periods. Although the exercise of options is uncertain, we believe the incumbent contractor enjoys significant advantages and these options are exercised nearly 100% of the time. The longevity of these contracts assists management in predicting revenue, operating income and cash flows. We expect approximately 45% of the backlog balance to be realized as revenue in fiscal 2016 and, with the inclusion of anticipated option period renewals, to represent approximately 93% of current estimated 2016 revenue.

Employees

As of September 30, 2015, we had approximately 17,000 employees, consisting of 9,300 employees in the Health Services Segment, 3,000 employees in our U.S. Federal Services Segment, 4,300 employees in the Human Services Segment and 400 corporate administrative employees. Our success depends in large part on attracting, retaining and motivating talented, innovative, experienced and educated professionals at all levels.

As of September 30, 2015, 414 of our employees in Canada were covered under three different collective bargaining agreements, each of which has different components and requirements. There are 402 employees covered by two collective bargaining agreements with the British Columbia Government and Services Employees' Union and 12 employees covered by a collective bargaining agreement with the Professional Employees Association. These collective bargaining agreements expire beginning in 2019 through 2020.

As of September 30, 2015, 1,917 of our employees in Australia were covered under a Collective Agreement, which is similar in form to a collective bargaining agreement. The Collective Agreement is renewed annually.

As of September 30, 2015, 732 of our employees in the United Kingdom were covered under four different collective bargaining agreements, each of which has different components and requirements. There are 170 employees covered by a collective bargaining agreement with the Union Public and Commercial Services, six employees covered by a collective bargaining agreement with the Union Prospect, and a total of 556 employees covered by a collective bargaining agreement with GMB Trade Union and Unite Amicus Trade Union. These collective bargaining agreements do not have expiration dates.

None of our other employees are covered under any such agreement. We consider our relations with our employees to be good.

Other information

MAXIMUS, Inc. is a Virginia Corporation, founded in 1975.

Our principal executive offices are located at 1891 Metro Center Drive, Reston, Virginia, 20190. Our telephone number is 703-251-8500.

Our website address is <http://www.maximus.com>. We make our website available for informational purposes only. It should not be relied upon for investment purposes, nor is it incorporated by reference into this Annual Report on Form 10-K.

We make our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and the proxy statement for our annual shareholders' meeting, as well as any amendments to those reports, available free of charge through our website as soon as reasonably practical after we file that material with, or furnish it to, the SEC. Our SEC filings may be accessed through the Investor Relations page of our website. These materials, as well as similar materials for other SEC registrants, may be obtained directly from the SEC through their website at <http://www.sec.gov>. This information may also be read and copied at the SEC's Public Reference Room at 100 F Street NE, Washington, DC 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330.

ITEM 1A. Risk Factors.

Our operations are subject to many risks that could adversely affect our future financial condition, results of operations and cash flows and, therefore, the market value of our securities. See Exhibit 99.1 of this Annual Report on Form 10-K under the caption "Special Considerations and Risk Factors" for information on risks and uncertainties that could affect our future financial condition and performance. The information in Exhibit 99.1 is incorporated by reference into this Item 1A.

ITEM 1B. Unresolved Staff Comments.

Not applicable.

ITEM 2. Properties.

We own a 60,000 square-foot office building in Reston, Virginia. We also lease offices for operations, management and administrative functions in connection with the performance of our services. At September 30, 2015, we leased 114 offices in the United States totaling approximately 2.2 million square feet. In five countries outside the U.S., we leased 294 offices totaling approximately 1.1 million square feet. The lease terms vary from month-to-month to ten-year leases and are generally at market rates. In the event that a property is used for our services in the U.S., we typically negotiate clauses to allow termination of the lease if the service contract is terminated by our customer. Such clauses are not standard in foreign leases.

We believe that our properties are maintained in good operating condition and are suitable and adequate for our purposes.

ITEM 3. *Legal Proceedings.*

We are subject to audits, investigations and reviews relating to compliance with the laws and regulations that govern our role as a contractor to agencies and departments of the United States Federal Government, state, local, and foreign governments, and otherwise in connection with performing services in countries outside of the U.S. Adverse findings could lead to criminal, civil or administrative proceedings, and we could be faced with penalties, fines, suspension or disbarment. Adverse findings could also have a material adverse effect on us because of our reliance on government contracts. We are subject to periodic audits by state, local and foreign governments for taxes. We are also involved in various claims, arbitrations, and lawsuits arising in the normal conduct of our business. These include but are not limited to, bid protests, employment matters, contractual disputes and charges before administrative agencies. Although we can give no assurance, based upon our evaluation and taking into account the advice of legal counsel, we do not believe that the outcome of any existing matter would likely have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 4. *Mine Safety Disclosures*

Not applicable.

PART II

ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our common stock trades on the New York Stock Exchange under the symbol "MMS." The following table sets forth, for the fiscal periods indicated, the range of high and low sales prices for our common stock and the cash dividends per share declared on the common stock.

	Price Range		Dividends
	High	Low	
Year Ended September 30, 2015:			
First Quarter	\$ 55.97	\$ 38.93	\$ 0.045
Second Quarter	66.93	52.36	0.045
Third Quarter	69.04	61.90	0.045
Fourth Quarter	70.00	55.99	0.045
Year Ended September 30, 2014:			
First Quarter	\$ 50.55	\$ 42.71	\$ 0.045
Second Quarter	50.24	40.61	0.045
Third Quarter	46.48	40.27	0.045
Fourth Quarter	43.40	37.94	0.045

As of October 30, 2015, there were 61 holders of record of our outstanding common stock. The number of holders of record is not representative of the number of beneficial owners due to the fact that many shares are held by depositories, brokers or nominees. We estimate there are approximately 28,000 beneficial owners of our common stock.

We expect to continue our policy of paying regular cash dividends, although there is no assurance as to future dividends. Future cash dividends, if any, will be paid at the discretion of our Board of Directors and will depend, among other things, upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors our Board of Directors may deem relevant.

The following table sets forth information regarding repurchases of common stock that we made during the three months ended September 30, 2015:

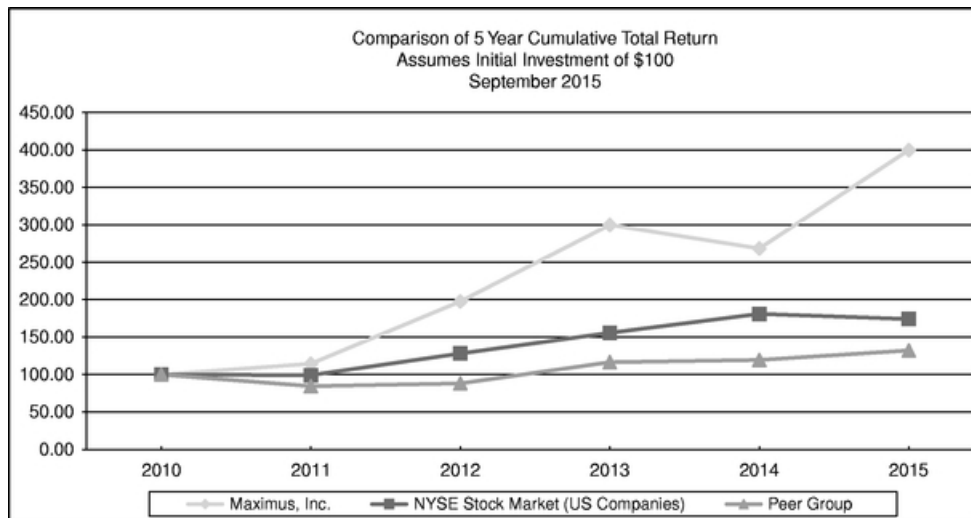

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans(1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plan (in thousands)
July 1, 2015 - July 31, 2015	—	\$ —	—	\$ 104,581
August 1, 2015 - August 31, 2015	643,797	60.13	643,797	182,004
September 1, 2015 - September 30, 2015(2)	417,265	60.68	222,900	168,568
Total	1,061,062	60.34	866,697	

- (1) Under a resolution adopted in August 2015, the Board of Directors authorized the repurchase, at management's discretion, of up to an aggregate of \$200 million of our common stock. This resolution superseded similar authorizations from November 2011 and June 2014. The resolution also authorized the use of option exercise proceeds for the repurchase of our common stock.

- (2) The total number of shares purchased in September 2015 includes 194,365 restricted stock units which vested in this month but which were utilized by the recipients to net-settle personal income tax obligations. The shares were not issued and a payment for this liability was made by us in October 2015.

Stock Performance Graph

The following graph compares the cumulative total shareholder return on our common stock for the five-year period from September 30, 2010 to September 30, 2015, with the cumulative total return for the NYSE Stock Market (U.S. Companies) Index. In addition, we have compared the results of a peer group to our performance. The peer group is comprised of companies noted in our annual proxy statement as entities with whom we compete for executive talent. These companies are SAIC, Unisys, CACI International, ManTech International, CIBER and Sapient. The peer groups are weighted by market capitalization. This graph assumes the investment of \$100 on September 30, 2010 in our common stock, the NYSE Stock Market (U.S. Companies) Index and our peer groups and assumes dividends are reinvested.

Notes:

- A. The lines represent index levels derived from compounded daily returns that include all dividends.
- B. The indexes are reweighted daily, using the market capitalization on the previous trading day.
- C. If the monthly interval, based on the fiscal year-end, is not a trading day, the preceding trading day is used.
- D. The index level for all series was set to \$100.00 on 09/30/2010.

ITEM 6. Selected Financial Data.

We have derived the selected consolidated financial data presented below from our consolidated financial statements and the related notes. The revenue and operating results related to the acquisition of companies using the purchase accounting method are included from the respective acquisition dates. The selected financial data should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included as Item 7 of this Annual Report on Form 10-K and with the Consolidated Financial Statements and related Notes included as Item 8 of this Annual Report on Form 10-K. The historical results set forth in this Item 6 are not necessarily indicative of the results of operations to be expected in the future.

	Year Ended September 30,				
	2015	2014	2013	2012	2011
	(In thousands, except per share data)				
Statement of operations data:					
Revenue	\$ 2,099,821	\$ 1,700,912	\$ 1,331,279	\$ 1,050,145	\$ 929,633
Operating income	259,832	225,308	185,155	127,334	122,401
Net income attributable to MAXIMUS	157,772	145,440	116,731	76,133	81,168
Basic earnings per share attributable to MAXIMUS	\$ 2.37	\$ 2.15	\$ 1.71	\$ 1.12	\$ 1.18
Diluted earnings per share attributable to MAXIMUS	\$ 2.35	\$ 2.11	\$ 1.67	\$ 1.09	\$ 1.14
Weighted average shares outstanding:

Diluted	67,275	69,087	69,893	69,611	71,062
Cash dividends per share of common stock	\$ 0.18	\$ 0.18	\$ 0.18	\$ 0.18	\$ 0.15

	At September 30,				
	2015	2014	2013	2012	2011
	(In thousands)				
Balance Sheet Data:					
Cash and cash equivalents	\$ 74,672	\$ 158,112	\$ 125,617	\$ 189,312	\$ 172,950
Total assets	1,280,171	900,996	857,978	695,293	565,279
Debt	210,974	1,217	1,489	1,736	1,696
Total MAXIMUS shareholders' equity	612,378	555,962	529,508	451,106	374,457

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of financial condition and results of operations is provided to enhance the understanding of, and should be read in conjunction with, our Consolidated Financial Statements and the related Notes.

Business overview

We provide business process services (BPS) to government health and human services agencies under our mission of *Helping Government Serve the People*.® We are one of the largest pure-play health and human services BPS providers to governments in the United States, the United Kingdom, Australia, Canada, Saudi Arabia and New Zealand. We use our experience, business process management expertise and advanced technological solutions to help government agencies run efficient and cost-effective programs, improve program accountability and outcomes and enhance the quality of services provided to program beneficiaries.

Over the past five years, our business has grown significantly. We believe this growth has been driven by economic and demographic factors, such as aging populations and increased demand for health care, and the need for governments to operate programs effectively and efficiently. This growth has been driven by reform efforts in the United States, including the Affordable Care Act (ACA), as well as internationally with various programs in Australia and the United Kingdom.

We believe that governments will continue to seek opportunities to enhance existing processes or address new challenges through companies such as MAXIMUS. We believe that a combination of our innovative technical solutions, deep subject matter expertise, stringent adherence to our Standards of Business Conduct and Ethics, robust financial performance and global experience gives existing and future customers the confidence that MAXIMUS can reliably operate their high-profile public health and human services programs.

Significant recent acquisitions

In April 2015, we acquired 100% of Acentia, LLC (Acentia), a provider of services to the U.S. Federal Government, and 70% of Remploy, a business providing services to the United Kingdom government. We believe both acquisitions will provide us with the ability to complement our existing services in their respective markets. These acquisitions have been integrated into our U.S. Federal Services and Human Services Segments, respectively.

On July 1, 2013, we acquired Health Management Limited (HML), a leading provider of independent health assessments within the United Kingdom. We acquired HML in order to expand our independent medical assessment business and to strengthen the presence of our Health Services Segment in the United Kingdom.

Financial overview

Our results for the three years ended September 30, 2015 have been driven by the following:

- The acquisitions of Acentia, HML and Remploy, which have increased revenue and profit, as well as our working capital, goodwill and intangible asset balances;
- New contracts in the United Kingdom, particularly the HAAS, which commenced in fiscal year 2015;
- New contracts in the United States, particularly those related to the ACA, which resulted in growth in fiscal years 2014 and 2015;

[Table of Contents](#)

- Expansion to our existing work in Australia, offset by the initial costs of setting up this work and deferral of initial revenue received;
- Additional growth, driven by new work and the expansion of existing contracts;
- Increased investment in our capital infrastructure, which has increased our operating costs, fixed asset balance and depreciation charges;
- Detrimental movement in foreign currencies which has resulted in reduced revenues and profits recorded by our international businesses; and
- Borrowings on our credit facilities, which have resulted in interest expense.

International businesses

We operate in international locations and, accordingly, we also transact business in currencies other than the United States Dollar, principally the British Pound, the Australian Dollar, the Canadian Dollar, the Saudi Arabian Riyal and the New Zealand Dollar. During the year ended September 30, 2015, we earned approximately 26% and 10% of revenue and operating income, respectively, from our foreign subsidiaries. At September 30, 2015, approximately 28% of our assets are held by foreign subsidiaries. International business exposes us to certain risks.

- International tax rules may limit the use of cash in other parts of the business without increasing significant additional tax expense or withholding. We mitigate this risk by maintaining sufficient capital outside the United States to support the short-term and long-term capital requirements of the businesses. We establish our legal entities to make efficient use of tax laws and holding companies to minimize this exposure.
- We are subject to exposure from foreign currency fluctuations. Our foreign subsidiaries typically incur costs in the same currency as they earn revenue, thus limiting our exposure to unexpected currency fluctuations. The operations of the U.S. business do not depend upon cash flows from foreign subsidiaries. However, declines in the relevant strength of foreign currencies against the U.S. Dollar will affect our revenue mix, profit margin and tax rate.

Summary of consolidated results

The following table sets forth, for the fiscal year ends indicated, selected statements of operations data:

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands, except per share data)		
Revenue	\$ 2,099,821	\$ 1,700,912	\$ 1,331,279
Gross profit	512,717	452,123	386,033
Gross profit margin	24.4%	26.6%	29.0%
Selling, general and administrative expense	238,792	220,925	193,827
Selling, general and administrative expense as a percentage of revenue	11.4%	13.0%	14.6%
Amortization of intangible assets	9,348	5,890	4,883
Acquisition-related expenses	4,745	—	2,168
Operating income	259,832	225,308	185,155
Operating income margin	12.4%	13.2%	13.9%
Interest expense	1,398	—	—
Other income, net	1,385	2,061	3,867
Income before income taxes	259,819	227,369	189,022
Provision for income taxes	99,770	81,973	71,673
Effective tax rate	38.4%	36.1%	37.9%
Net income	160,049	145,396	117,349
Income/(loss) attributable to noncontrolling interests	2,277	(44)	618
Net income attributable to MAXIMUS	\$ 157,772	\$ 145,440	\$ 116,731
Basic earnings per share attributable to MAXIMUS	\$ 2.37	\$ 2.15	\$ 1.71
Diluted earnings per share attributable to MAXIMUS	\$ 2.35	\$ 2.11	\$ 1.67

To assist our presentation of the financial statements, we also include the following performance indicators. These items are considered "non-GAAP" numbers. We have also included at the end of this section details on our use of these performance indicators and reconciliations to their respective Generally Accepted Accounting Principles (GAAP) numbers.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands, except per share data)		
Adjusted diluted earnings per share attributable to MAXIMUS	\$ 2.39	\$ 2.11	\$ 1.59
Earnings Before Interest, Taxes and Amortization (EBITA)	\$ 289,545	\$ 248,766	\$ 206,343
Earnings Before Interest, Taxes Depreciation and Amortization (EBITDA)	336,394	291,544	237,276
Adjusted EBITDA	336,394	291,544	226,376

The following provides an overview of the significant elements of our Consolidated Statements of Operations. As our business segments have different factors driving revenue growth and profitability, the sections that follow cover these segments in greater detail. Our business sections have been updated in fiscal year 2015. Please refer to Note 2. Business segments in Item 8 of this Annual Report on Form 10-K.

[Table of Contents](#)*Fiscal year 2015 compared to fiscal year 2014*

Revenue increased 23% to \$2,099.8 million. Much of the growth was organic, particularly in the Health Services Segment, supplemented with acquired growth from Acentia and Remploy. During fiscal year 2015, the United States Dollar gained in strength against the Australian Dollar and Canadian Dollar and, accordingly, we received lower revenues than would have been the case if currency rates had remained stable.

	Dollars in Thousands	Percentage change
Revenue for fiscal year 2014	\$ 1,700,912	
Organic revenue growth	317,653	18.7%
Acquired revenue from Acentia and Remploy	141,036	8.3%
Currency effect compared to fiscal year 2014	(59,780)	(3.5)%
Revenue for fiscal year 2015	<u>\$ 2,099,821</u>	<u>23.5%</u>

Gross profit increased 13% to \$512.7 million, representing a profit margin of 24.4% compared to 26.6% in the prior year. This decline in gross margin has been driven by several factors.

- Our federal appeals business has declined year-over-year to a normal profit margin, driven by changes in related legislation.
- With the acquisition of Acentia, a greater share of our customer portfolio earns income from cost-plus or time-and-materials contracts. These contracts typically offer lower margins in return for lower risk.
- The HAAS contract in the United Kingdom has received reduced performance incentives as we encounter challenges in recruiting and retaining trained healthcare professionals.
- We have several contracts in 2015 in start-up. We typically see lower margins in the early stages of a contract.

Selling, general and administrative expense (SG&A) consists of costs related to general management, marketing and administration. These costs include salaries, benefits, bid and proposal efforts, travel, recruiting, continuing education, employee training, non-chargeable labor costs, facilities costs, printing, reproduction, communications, equipment depreciation, intangible amortization, legal expenses and the costs of business combinations. Our SG&A as a percentage of revenue has declined between fiscal years 2014 to 2015, as the revenue growth of the business overall exceeded that of our administrative cost base. In addition, our management cash bonus plan was reduced in fiscal year 2015 compared to fiscal year 2014.

Acquisition-related expenses are costs directly incurred from the purchases of Acentia and Remploy in 2015 and HML in 2013, as well as any unsuccessful transactions.

Operating income increased 15% to \$259.8 million, which is 12.4% of revenue. This growth was driven by organic growth and the acquisitions of Acentia and Remploy, partially offset by currency headwinds. The operating profit margin decline has been driven by the same factors as the operating profit decline, as well as increases in costs related to acquisitions and intangible asset amortization.

In fiscal year 2015, we used a combination of borrowings from our revolving credit facility and cash to fund the acquisition of Acentia as well as other strategic and working capital requirements. As a consequence, we have recorded interest expense in fiscal year 2015.

[Table of Contents](#)

Our tax rate for fiscal year 2015 was 38.4%, compared to 36.1% in 2014. Our tax rate has increased due to a greater share of our income coming from the United States, particularly with the growth of our U.S. Federal Services Segment. In addition, our fiscal year 2014 tax rate received the benefit of the utilization of additional employment-related tax credits in fiscal year, the utilization of a tax net operating loss in Canada which had previously been fully reserved, and a benefit to our state taxes for the difference between the estimates in fiscal year 2013 to the tax returns filed in the fourth quarter of fiscal year 2014. For fiscal year 2016, the Company is anticipating a tax rate between 37% and 39%.

Fiscal year 2014 compared to fiscal year 2013

Revenue increased 28% to \$1,701 million. Much of the growth was organic, particularly in the Health Services and U.S. Federal Services Segments, supplemented with acquired growth from HML. In fiscal year 2013, we terminated a contract which had been acquired as part of the PSI acquisition, resulting in a one-time benefit of \$16.0 million to revenue, \$10.9 million to pre-tax profit and \$0.09 to diluted earnings per share. This contract was in the Human Services Segment.

Gross profit increased 17% to \$452.1 million, representing a profit margin of 26.6% compared to 29.0% in the prior year. Gross profit margins declined due to new, cost-plus contracts in the Health Services Segment, which typically operate at lower margins than performance-based or fixed fee arrangements. Margins in fiscal year 2013 had received the benefit of the terminated contract.

Our SG&A as a percentage of revenue has declined between fiscal years 2013 to 2014, as the revenue growth of the business overall exceeded that of our administrative cost base.

Operating income increased 22% to \$225.3 million representing a profit margin of 13.2% for the year ended September 30, 2014, compared to 13.9% in the prior year. This growth was principally driven by new work tied to the ACA in our Health and U.S. Federal Services Segments.

Interest and other income declined due to decreases in our international cash balances, which generated the majority of our interest income. These funds were used to acquire HML in fiscal year 2013.

Our tax rate for fiscal year 2014 was 36.1%, compared to 37.9% in 2013. This decline was caused by the utilization of significant additional employment-related tax credits in fiscal year, the utilization of a tax net operating loss in Canada which had previously been fully reserved, and a benefit to our state taxes for the difference between the estimates in fiscal year 2013 to the tax returns filed in the fourth quarter of fiscal year 2014.

Health Services Segment

The Health Services Segment provides a variety of business process services, as well as related consulting services, for state, provincial and national government programs. These services support Medicaid, the Children's Health Insurance Program and the Affordable Care Act in the U.S., Health Insurance BC (British Columbia) in Canada and the Health Assessment Advisory Service (HAAS) and Fit for Work Service in the U.K.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands)		
Revenue	\$ 1,109,238	\$ 906,650	\$ 691,565
Gross profit	254,108	213,728	172,336
Operating income	154,293	115,556	89,205
Gross profit margin	22.9%	23.6%	24.9%
Operating profit margin	13.9%	12.7%	12.9%

[Table of Contents](#)*Fiscal year 2015 versus fiscal year 2014*

Revenue increased by 22% to \$1,109.2 million. Gross profit increased by 19% and operating profit increased by 34%.

The results for the Segment were driven by new work, including HAAS, and the expansion of existing contracts.

	Dollars in Thousands	Percentage change
Revenue for fiscal year 2014	\$ 906,650	
Organic revenue growth	225,285	24.8%
Currency effect compared to fiscal year 2014	(22,697)	(2.5)%
Revenue for fiscal year 2015	<u>\$ 1,109,238</u>	<u>22.3%</u>

Our gross profit margin declined year-over-year driven primarily by the HAAS contract. This contract, which commenced in fiscal year 2015, has experienced challenges in the recruitment and retention of healthcare professionals. These difficulties, in turn, have resulted in reduced fees from performance incentives in this contract. This detriment was offset by accretive new work and improvements in the performance of an unprofitable contract acquired with PSI and launched in fiscal year 2014.

Our operating profit margin improved, as the increase in revenue did not result in an associated increase in the size of SG&A expenses, due to benefits of scale and a decline in the management cash bonus plan.

Our performance in fiscal year 2016 will be significantly affected by our ability to address issues related to the HAAS contract, as well as successfully executing other new contracts.

Fiscal year 2014 versus fiscal year 2013

Revenue increased by 31% to \$906.7 million. Gross profit increased by 24% and operating profit increased by 30%.

The results for the Segment were driven by:

- Work related to the ACA, including new work and the expansion of work on existing contracts;
- The benefit of a full year of HML's business, which was acquired in July 2013; and
- Other significant new contracts which commenced during the 2013 and 2014 fiscal years.

Gross and operating profit margins were lower than in prior years driven by:

- Contract start-up activity in late fiscal year 2014, related to the U.K. Health and Work Service (Fit for Work); and
- The launch, during fiscal year 2014, of an unprofitable contract which had been acquired with PSI.

U.S. Federal Services Segment

The U.S. Federal Services Segment provides business process solutions, system development, software development and program management for various civilian U.S. federal programs.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands)		
Revenue	\$ 502,484	\$ 341,840	\$ 167,258
Gross profit	118,646	110,793	73,694
Operating income	59,394	63,098	42,566
Gross profit margin	23.6%	32.4%	44.1%
Operating profit margin	11.8%	18.5%	25.4%

[Table of Contents](#)*Fiscal year 2015 versus fiscal year 2014*

Revenue increased by 47% to \$502.5 million. Gross profit increased by 7.1% and operating profit decreased by 5.9%.

Revenue was both organic and acquired, with the Acentia business being integrated into this Segment. These increases were offset by an expected decline in our Medicare Appeals business.

	Dollars in Thousands	Percentage change
Revenue for fiscal year 2014	\$ 341,840	
Organic revenue growth	56,649	16.6%
Acquired revenue from Acentia	103,995	30.4%
Revenue for fiscal year 2015	<u>\$ 502,484</u>	<u>47.0%</u>

Our profit margins have declined year-over-year due to the anticipated decline in Medicare appeals volumes, which were highly accretive. The addition of Acentia's businesses to our portfolio has also reduced our margins as they have a higher level of cost-plus work, which typically experiences lower margins.

For fiscal year 2016, we are anticipating margin improvement from our Department of Education contract, but overall margins will be closer to those in fiscal year 2015 than those of earlier years.

Fiscal year 2014 versus fiscal year 2013

Revenue doubled to \$341.8 million. Gross profit increased by 50% and operating profit increased by 48%.

The results for the Segment were driven by growth in the ACA-related business. Our ACA-related work in this Segment has typically been cost-plus work and, accordingly, experienced lower margins than other contracts within the U.S. Federal Services Segment.

Human Services Segment

The Human Services Segment provides national, state and county human services agencies with a variety of business process services and related consulting services for welfare-to-work, child support, higher education and K-12 special education programs. About 62% of our revenue in this Segment is earned in foreign jurisdictions.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands)		
Revenue	\$ 488,099	\$ 452,422	\$ 472,456
Gross profit	139,963	127,602	140,003
Operating income	60,244	53,158	61,033
Gross profit margin	28.7%	28.2%	29.6%
Operating profit margin	12.3%	11.7%	12.9%

Fiscal year 2015 versus fiscal year 2014

Revenue increased 7.9% to \$488.1 million. Gross profit increased by 9.7% and operating profit increased by 13.3%. Revenue movement was driven by:

- Organic growth in all our markets;
- Acquired growth from Remploy; and
- The detrimental effect of foreign currency exchange rates.

	Dollars in Thousands	Percentage change
Revenue for fiscal year 2014	\$ 452,422	
Organic revenue growth	35,719	7.9%
Acquired revenue from Remploy	37,041	8.2%
Currency effect compared to fiscal year 2014	(37,083)	(8.2)%
Revenue for fiscal year 2015	<u>\$ 488,099</u>	<u>7.9%</u>

Our operating margin increased due to strong performance in our North American operations and Remploy.

In July 2015, we commenced work under a new Australian welfare-to-work contract which expanded our existing workload. The structure of the reimbursement for this work and the costs of expanding the operations resulted in additional costs and deferral of revenue in this period, which reduced our gross and operating profit margins. In fiscal year 2016, we anticipate that this contract will be fully ramped-up.

Fiscal year 2014 versus fiscal year 2013

The results for the Human Services Segment in fiscal year 2013 were affected by a one-time benefit from the termination of a system-integration contract acquired with PSI. The termination resulted in a one-time benefit of \$16.0 million to revenue, \$10.9 million to pre-tax profit and \$0.09 to diluted earnings per share. Although contract terminations for convenience do occur within our business, they are infrequent. In addition, this termination was unusual due to the significant effect of the transaction as it involved deferred revenue from the PSI acquisition and does not reflect the underlying operations of the Company. We have provided a reconciliation below showing our results excluding the favorable effect of this contract.

	Results for Human Services Segment for year ended September 30, 2013		
	Revenue	Gross profit	Operating profit
	(dollars in thousands)		
As reported	\$ 472,456	\$ 140,003	\$ 61,033
Effect of terminated contract	(16,035)	(10,900)	(10,900)
Results excluding the effect of the terminated contract	<u>\$ 456,421</u>	<u>\$ 129,103</u>	<u>\$ 50,133</u>
Profit margins excluding the effect of the terminated contract.		28.3%	11.0%

Revenue for fiscal year 2014 totaled \$452.4 million and was comparable to the same period in the prior year, excluding the terminated contract noted above. Fiscal year 2014 revenue was reduced by approximately \$11.0 million by currency fluctuations and was adversely affected by the completion of a large fixed-price contract which came to an end in early 2014.

Liquidity and capital resources

In April 2015, we used \$225 million from our revolving credit facility to acquire Acentia, with the balance of the payment being made up with available cash in the U.S. In addition, we have made short-term borrowings as required to cover our immediate working capital requirements. Other outlays, including working capital, capital expenditure, the acquisition of Remploy, repurchases of shares and cash dividends have been funded from our operating cash flows. At September 30, 2015, we had outstanding borrowings of \$209.7 million under the credit facility.

Our operating cash inflows are typically driven by our contracts and influenced by payment terms in contracts. For many contracts, including two new projects in the U.K., we are reimbursed up front for the costs of our start-up operations. Although there may be a gap between incurring costs and receiving this reimbursement, we have sufficient funds to cover these costs. Other factors that may cause delays in our realization of customer receipts include customer payments based upon delivering outcomes, which may not correspond with the costs incurred to achieve these outcomes, and short-term payment delays where government budgets are constrained.

Days sales outstanding, or DSO, is a measure of how efficiently we manage the billing and collection of our receivable balances. We calculate DSO by dividing billed and unbilled receivable balances at the end of each quarter by revenue per day for the period. Revenue per day for a quarter is determined by dividing total revenue by 91 days. DSO was 67 as of September 30, 2015, compared to 64 as of September 30, 2014. Our DSO remains within our stated target range of 65 to 80 days.

Our credit facility allows us to borrow up to \$400 million, subject to standard covenants. We anticipate that our cash flows from operations over the course of the next two years should be sufficient to meet our day-to-day requirements, as well as pay our interest and repay the principal on our existing borrowings.

At September 30, 2015, our foreign subsidiaries held 80% of our cash and cash equivalents. We have no requirement or intent to remit this cash to the United States. We consider undistributed earnings of our foreign subsidiaries to be indefinitely reinvested outside of the United States and, accordingly, no U.S. deferred taxes have been recorded with respect to such earnings in accordance with the relevant accounting guidance for income taxes. Should the earnings be remitted as dividends, we may be subject to additional U.S. taxes, net of allowable foreign tax credits. It is not practicable to estimate the amount of any additional taxes which may be payable on the undistributed earnings given the various tax planning alternatives we could employ should we decide to repatriate these earnings in a tax-efficient manner.

The following table provides a summary of our cash flow information for the three years ended September 30, 2015.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands)		
Net cash provided by (used in):			
Operating activities	\$ 206,217	\$ 213,600	\$ 120,938
Investing activities	(393,872)	(49,389)	(129,833)
Financing activities	111,115	(127,144)	(41,862)
Effect of exchange rates on cash and cash equivalents	(6,900)	(4,572)	(12,938)
Net (decrease)/increase in cash and cash equivalents	<u>\$ (83,440)</u>	<u>\$ 32,495</u>	<u>\$ (63,695)</u>

[Table of Contents](#)

Cash provided by operating activities for the years ended September 30, 2015, 2014 and 2013 was \$206.2 million, \$213.6 million and \$120.9 million, respectively. Cash provided by operating activities is driven by changes in our operating income, as well as changes in our working capital and the timing of cash receipts from customers and payments to tax authorities. In fiscal year 2013, we ended the year with a significant number of new contracts, particularly those related to the ACA. As is often the case with new contracts, delays in billings and collections resulted in operating cash flows significantly lower than might have been expected, which were then recovered in fiscal year 2014. DSO at September 30, 2014 was 64 days, compared with 69 days at September 30, 2013. These five days accounted for approximately \$24 million of cash flow benefit in fiscal year 2014. DSO at September 30, 2015 was 67 days, the increase of three days resulting in approximately \$19 million of reduced cash flows in fiscal year 2015.

Cash used in investing activities includes net cash outflows related to acquisitions of businesses of \$289.2 million, \$2.7 million and \$68.1 million in fiscal years 2015, 2014 and 2013, respectively. These cash flows principally relate to the acquisitions of Acentia, Remploy and HML. In addition, the Company made significant investments in fiscal year 2015 to improve our IT infrastructure in the U.S. as well as project specific capital build outs in the U.K. and Australia. We expect that capital expenditures will be significantly lower in fiscal year 2016.

On April 1, 2015, we borrowed \$225 million in connection with the acquisition of Acentia. During the third and fourth fiscal quarters, we have repaid \$15.3 million, resulting in net borrowings under our revolving credit facility of \$209.7 million. We had \$189.5 million available to borrow as of September 30, 2015. We believe this will be sufficient to cover our operating and other cash requirements.

In addition, we purchased \$82.8 million, \$111.1 million and \$33.3 million of our own common stock in fiscal 2015, 2014 and 2013, respectively. We have repurchased 5.3 million shares over these three years and, at September 30, 2015, we had \$168.6 million available for future repurchases under a plan approved by our Board of Directors. This is in addition to our existing dividend, which has provided payments of approximately \$12 million per year. Both our share repurchases and cash dividends are at the discretion of our Board of Directors and depend upon our future operations and earnings, capital requirements general financial condition, contractual restrictions and other factors our Board of Directors may deem relevant. During the first quarter of fiscal year 2016 through November 16, 2015, we acquired an additional 0.3 million shares at a cost of \$14.4 million. Based upon our shares repurchased and our expectations for future purchases, we are anticipating that our diluted number of shares for fiscal year 2016 will be approximately 66.2 million. In addition, we declared a dividend of \$0.045 per common share which will be paid on November 30, 2015 to shareholders of record on November 13, 2015. Based on the number of shares outstanding, the payment will be approximately \$2.9 million.

The detrimental effect of exchange rates on cash and cash equivalents of \$6.9 million in the 2015 fiscal year primarily reflects the strengthening of the United States Dollar against the Australian Dollar and Canadian Dollar.

[Table of Contents](#)

To supplement our statements of cash flows presented on a GAAP basis, we use the measure of free cash flow to analyze the funds generated from operations.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands)		
Cash provided by operating activities	\$ 206,217	\$ 213,600	\$ 120,938
Purchases of property and equipment	(98,994)	(36,262)	(43,580)
Capitalized software costs	(6,155)	(10,886)	(18,596)
Free cash flow	<u>\$ 101,068</u>	<u>\$ 166,452</u>	<u>\$ 58,762</u>

Obligations and commitments

The following table summarizes our contractual obligations at September 30, 2015 that require the Company to make future cash payments (in thousands):

Contractual obligations	Payments due by period				
	Total	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
	(Dollars in thousands)				
Operating leases	\$ 221,777	\$ 70,892	\$ 97,768	\$ 48,198	\$ 4,919
Debt(1)	222,455	2,918	5,540	213,768	229
Deferred compensation plan liabilities(2)	21,596	961	1,743	1,172	17,720
Total(3)	<u>\$ 465,828</u>	<u>\$ 74,771</u>	<u>\$ 105,051</u>	<u>\$ 263,138</u>	<u>\$ 22,868</u>

- (1) Interest included in debt was \$11.4 million, \$2.5 million, \$5.1 million, \$3.8 million and zero for the total, less than one year, one to three years, three to five years and more than five years, respectively. These include interest payments that would be made on our revolving credit facility if the current balance and borrowing rate were to continue to prevail.
- (2) Deferred compensation plan liabilities are typically payable at times elected by the employee at the time of deferral. However, early withdrawal is permitted for certain conditions, including employee hardship or termination, which may accelerate the payment of these liabilities.
- (3) Due to the uncertainty with respect to the timing of future cash flows associated with the Company's unrecognized income tax benefits at September 30, 2015, we are unable to reasonably estimate settlements with taxing authorities. The above table does not reflect unrecognized income tax benefits of approximately \$1.0 million, of which approximately \$0.5 million is related interest and penalties. See "Note 15. Income taxes" of the Consolidated Financial Statements for a further discussion on income taxes.

The contractual obligations table also omits our liabilities with respect to acquisition-related contingent consideration. As part of the acquisition arrangement for DeltaWare Systems, Inc., which was acquired in fiscal year 2010, we agreed to pay up to \$4.0 million (Canadian) in the event that certain sales targets are reached up to 2016. At present, we have reduced our accrual to zero based upon a probability-weighted assessment of our likely payments under this arrangement. At this time, no sales arrangements have been entered into which would require a payment to be made. See "Note 5." of the Consolidated Financial Statements for additional information.

Off-balance sheet arrangements

Other than our operating lease commitments, we do not have material off-balance sheet risk or exposure to liabilities that are not recorded or disclosed in our financial statements. We have significant operating lease commitments for office space; those commitments are generally tied to the period of performance under related contracts. Although on certain contracts we are bound by performance bond commitments and standby letters of credit, we have not had any defaults resulting in draws on performance bonds. Also, we do not speculate in derivative transactions. We utilize interest rate derivatives to add stability to interest expense and to manage our exposure to interest rate movements.

Effects of inflation

As measured by revenue, approximately 29% of our business in fiscal year 2015 was conducted under cost-reimbursable pricing arrangements that adjust revenue to cover costs increased by inflation. Approximately 6% of the business was time-and-material pricing arrangements where labor rates are often fixed for several years. We generally have been able to price these contracts in a manner that accommodates the rates of inflation experienced in recent years. Our remaining contracts are fixed-price and performance-based and are typically priced to mitigate the risk of our business being adversely affected by inflation.

Critical accounting policies and estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect the amounts reported. We consider the accounting policies below to be the most important to our financial position and results of operations either because of the significance of the financial statement item or because of the need to use significant judgment in recording the balance. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ from those estimates. Our significant accounting policies are summarized in Note 1 of the Consolidated Financial Statements included in Item 8 in this Annual Report on Form 10-K.

Revenue Recognition. We recognize revenue on arrangements as work is performed and amounts are earned. We consider amounts to be earned once evidence of an arrangement has been obtained, services have been delivered, fees are fixed or determinable and collectability of revenue is reasonably assured.

Approximately 29% of our business is derived from cost-plus pricing arrangements. Revenue on cost-plus contracts is recognized based on costs incurred plus the negotiated fee earned. For certain arrangements, the nature and allocation of costs incurred is subject to judgment and differing amounts could be recorded if underlying assumptions or estimates were to change. The Company closely monitors its methodology for recording cost-plus revenue and incorporates the results of client audits where applicable to refine these estimates. Changes in estimates may result in significant changes to revenue.

On certain performance-based arrangements, our payments for transactions performed may decline over the life of the contract. Where this occurs, we must identify whether the lower future payments represent a discount which is both significant and incremental. Where a discount is considered significant and incremental, we recognize revenue for each transaction on an estimated average effective rate. As this estimate is based upon future volume of transactions, changes to these anticipated volumes may result in changes to our revenue.

[Table of Contents](#)

Prior to fiscal year 2014, we had some fixed-price contracts, primarily systems design, development and implementation, where we recognized revenue based upon costs incurred to date and our anticipated gross profit. The cumulative impact of any revisions in estimated revenue and costs was recognized in the period in which the facts that give rise to the revision become known. Such contracts required a number of estimates including the timing of future work to be performed, the future costs of labor and materials and, where considered to be estimable and probable, adjustments to revenue from change orders or contract incentives. This work is no longer a significant part of our business.

Where contracts have multiple deliverables, we evaluate these deliverables at the inception of each contract and as each item is delivered. As part of this evaluation, we consider whether a delivered item has value to a customer on a stand-alone basis and whether the delivery of the undelivered items is considered probable and substantially within our control, if a general right of return exists. Where deliverables, or groups of deliverables, have both of these characteristics, we treat each deliverable item as a separate element in the arrangement, allocate a portion of the allocable arrangement consideration using the relative selling price method to each element and apply the relevant revenue recognition guidance to each element. The allocation of revenue to individual elements requires judgment as, in many cases, we do not provide directly comparable services or products on a standalone basis.

Business combinations and goodwill. The purchase price of an acquired business is allocated to tangible assets and separately identifiable intangible assets acquired less liabilities assumed based upon their respective fair values. The excess balance is recorded as goodwill. Accounting for business combinations requires the use of judgment in determining the fair value of assets acquired and liabilities assumed in order to allocate the purchase price of entities acquired. Our estimates of these fair values are based upon assumptions we believe to be reasonable and, where appropriate, include assistance from third-party appraisal firms.

Goodwill is not amortized, but is subject to impairment testing on an annual basis, or more frequently if impairment indicators arise. Impairment testing is performed at the reporting unit level. This process requires judgment in identifying our reporting units, appropriately allocating goodwill to these reporting units and assessing the fair value of these reporting units. At July 1, 2015, the Company performed the annual impairment test and determined that there had been no impairment of goodwill. In performing this assessment, the Company utilizes an income approach. Such an approach requires estimation of future operating cash flows including business growth, utilization of working capital and discount rates. The valuation of the business as a whole is compared to the Company's market capital at the date of the acquisition in order to verify the calculation. In all cases, we determined that the fair value of our reporting units was significantly in excess of our carrying value to the extent that a 25% decline in fair value in any reporting unit would not have resulted in an impairment charge.

Long-Lived Assets (Excluding Goodwill). The Company reviews long-lived assets for impairment whenever events or circumstances indicate that the carrying amount of an asset may not be fully recoverable. Examples of indicators include projects performing less well than anticipated or making losses or an identified risk of a contract termination. Where a potential risk is identified, our review is based on our projection of the undiscounted future operating cash flows of the related customer project. To the extent such projections indicate that future undiscounted cash flows are not sufficient to recover the carrying amount of the related assets (the asset group), we recognize a non-cash impairment charge to reduce the carrying amount to equal projected future discounted cash flows. Judgment is required in identifying the indicators of impairment, in identifying the asset group and in estimating the future cash flows.

No impairment charges were recorded in the three years ending September 30, 2015. During the year ended September 30, 2015, the Company performed assessments on two sets of long-lived assets with carrying values of \$17.2 million and \$12.8 million, respectively. Although no impairment was identified at this time, both asset groups have lives in excess of three years and will most likely continue to be reviewed quarterly for asset impairment over their remaining lives.

[Table of Contents](#)

Contingencies. From time to time, we are involved in legal proceedings, including contract and employment claims, in the ordinary course of business. We assess the likelihood of any adverse judgments or outcomes to these contingencies, as well as potential ranges of probable losses and establish reserves accordingly. The amount of reserves required may change in future periods due to new developments in each matter or changes in approach to a matter such as a change in settlement strategy.

Income Taxes. The Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would "more likely than not" sustain the position following an audit. For tax positions meeting the "more likely than not" threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. The assumptions and estimates used in preparing these calculations may change over time and may result in adjustments that will affect our tax charge.

Non-GAAP and other measures

We utilize non-GAAP measures where we believe it will assist the user of our financial statements in understanding our business.

We provide organic revenue growth as a useful basis for assessing the performance of the business excluding the effect of transactions. To calculate this, we compare current year revenue excluding acquisitions to prior year revenue.

We provide constant currency revenue movement as a useful basis for assessing the performance of the business excluding the effect of foreign exchange fluctuations. To calculate this, we determine the current year's revenue for all foreign businesses using the exchange rates in the prior year.

We provide free cash flow information as a useful basis for investors to compare our performance across periods or against our competitors. Free cash flow shows the effects of the Company's operations and routine capital expenditure and excludes the cash flow effects of acquisitions, share repurchases, dividend payments and other financing transactions. We have provided a reconciliation of free cash flow to cash provided by operating activities.

We provide days sales outstanding, or DSO, as a measure of how efficiently we manage the billing and collection of our receivable balances. We calculate DSO by dividing billed and unbilled receivable balances at the end of each quarter by revenue per day for the period. Revenue per day for a quarter is determined by dividing total revenue by 91 days.

We have provided an analysis of revenue, gross profit and operating profit excluding a single contract which was terminated in fiscal year 2013. We believe this provides a useful basis for understanding the performance of our business year-over-year. We have provided a reconciliation of these balances to their respective GAAP numbers.

[Table of Contents](#)

We have provided adjusted diluted earnings per share. Adjusted diluted earnings per share shows our diluted earnings per share excluding the effects of acquisition expenses and the termination of the contract noted above. We believe that this provides a useful basis for understanding the performance of our business excluding the effects of unusual transaction costs. We have provided a reconciliation from diluted earnings per share to adjusted diluted earnings per share below.

	Year ended September 30,		
	2015	2014	2013
	(dollars in thousands)		
Diluted earnings per share attributable to MAXIMUS	\$ 2.35	\$ 2.11	\$ 1.67
Acquisition-related expenses	0.04	—	0.01
Terminated contract	—	—	(0.09)
Adjusted diluted earnings per share attributable to MAXIMUS	<u>\$ 2.39</u>	<u>\$ 2.11</u>	<u>\$ 1.59</u>

We have provided EBITDA and EBITA, as well as their respective margins. EBITDA and EBITA are measures of our performance excluding the effects of taxes, interest expense, amortization and depreciation. We believe that these measures provide a useful basis for assessing the performance of our business excluding the effects of changes in taxation rates, interest rates, cash borrowings, acquisition-related expenses, amortization of intangible assets and fluctuations in capital expenditures. In addition, our calculation of EBITDA is consistent with the calculation utilized to determine our compliance with the conditions of our Credit Facility, as well as our borrowing rate and the level of security we provide to our lenders. To assist in understanding trends in our underlying business, we have also calculated EBITDA excluding the effect of the terminated contract noted above, resulting in an "Adjusted EBITDA." We have provided a reconciliation from net income to EBITA, EBITDA and Adjusted EBITDA as follows (in thousands):

	Year ended September 30,		
	2015	2014	2013
Net income attributable to MAXIMUS	\$ 157,772	\$ 145,440	\$ 116,731
Interest expense/(income)	673	(1,815)	(3,667)
Provision for income taxes	99,770	81,973	71,673
Amortization of intangible assets	9,348	5,890	4,883
Stock compensation expense	17,237	17,278	14,555
Acquisition-related expenses	4,745	—	2,168
EBITA	289,545	248,766	206,343
Depreciation and amortization of property, plant, equipment and capitalized software	46,849	42,778	30,933
EBITDA	336,394	291,544	237,276
Effect of terminated contract	—	—	(10,900)
Adjusted EBITDA	<u>\$ 336,394</u>	<u>\$ 291,544</u>	<u>\$ 226,376</u>

The presentation of these non-GAAP numbers is not meant to be considered in isolation, nor as alternatives to revenue growth, cash flows from operating activities or net income as measures of performance. These non-GAAP financial measures, as determined and presented by us, may not be comparable to related or similarly titled measures presented by other companies.

ITEM 7A. *Quantitative and Qualitative Disclosures About Market Risk.*

Our exposure to market risks generally relates to changes in interest rates and foreign currency exchange rates.

We are exposed to market rate risk relating to interest rates through our revolving credit facility. Our cash equivalent balances are held in highly rated securities with maturities of three months or less. We manage our exposure to interest rate fluctuations through the use of interest rate swap agreements. At September 30, 2015, we had borrowings under our credit facility of \$209.7 million and we had an interest rate swap agreement fixing a notional \$53.3 million of this balance. Our interest rate varies based upon our leverage, as defined in our agreement with our lenders, but we are currently paying interest at a rate based upon the one-month London Interbank Offering Rate (LIBOR) plus 1%. The one-month LIBOR rate at September 30, 2015 was 0.19%. A hypothetical increase in LIBOR by 10% would increase our annual interest expense and cash flows on our outstanding balance by \$0.3 million.

We are exposed to foreign currency exchange risk through our businesses in the United Kingdom, Australia, Canada and New Zealand. At September 30, 2015, we held net assets in functional currencies other than the U.S. Dollar of \$190.3 million and, accordingly, in the event of a 10% fluctuation in the value of the local currencies, we would report a \$19.0 million gain or loss in our statement of comprehensive income. Our foreign-based businesses mitigate their currency risks through incurring costs in the same currency as their revenue. The operations of the U.S. business do not depend upon cash flows from the foreign businesses.

ITEM 8. *Financial Statements and Supplementary Data.*

The following consolidated financial statements and supplementary data are included as part of this Annual Report on Form 10-K:

Report of Independent Registered Public Accounting Firm	39
Consolidated Statements of Operations for the years ended September 30, 2015, 2014 and 2013	40
Consolidated Statements of Comprehensive Income for the years ended September 30, 2015, 2014 and 2013	41
Consolidated Balance Sheets as of September 30, 2015 and 2014	42
Consolidated Statements of Cash Flows for the years ended September 30, 2015, 2014 and 2013	43
Consolidated Statements of Changes in Shareholders' Equity for the years ended September 30, 2015, 2014 and 2013	44
Notes to Consolidated Financial Statements	45

**REPORT OF ERNST & YOUNG LLP,
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM,
ON THE AUDITED CONSOLIDATED FINANCIAL STATEMENTS**

The Board of Directors and Shareholders
MAXIMUS, Inc.

We have audited the accompanying consolidated balance sheets of MAXIMUS, Inc. as of September 30, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended September 30, 2015. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of MAXIMUS, Inc. at September 30, 2015 and 2014, and the consolidated results of their operations and their cash flows for each of the three years in the period ended September 30, 2015, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), MAXIMUS, Inc.'s internal control over financial reporting as of September 30, 2015, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated November 16, 2015 expressed an unqualified opinion thereon.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements

For the years ended September 30, 2015, 2014 and 2013

1. Business and summary of significant accounting policies

(a) Description of business

MAXIMUS, Inc. (the "Company" or "we") provides business process services (BPS) to government health and human services agencies in the United States and to foreign governments. We conduct our operations through three business segments: Health Services, U.S. Federal Services and Human Services. The Health Services Segment provides a variety of BPS, as well as related consulting services, for state, provincial and national government programs, including Medicaid, CHIP and the ACA in the United States, Health Insurance BC (British Columbia) in Canada and the Health Assessment Advisory Service and Fit for Work in the United Kingdom. The U.S. Federal Services Segment provides system development, software development and program management for various civilian U.S. federal programs. The Human Services Segment provides national, state and county human services agencies with a variety of business process services and related consulting services for welfare to work, child support, higher education and K-12 special education programs.

(b) Principles of consolidation

The consolidated financial statements include the accounts of MAXIMUS, Inc. and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Where MAXIMUS owns less than 100% of the share capital of its subsidiaries, but is still considered to have sufficient ownership to control the businesses, the results of these business operations are consolidated within our financial statements. The ownership interests held by other parties are shown as noncontrolling interests.

(c) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenue and expenses during each reporting period. Actual results could differ from those estimates. Our significant estimates include estimates of the fair value of assets acquired and liabilities assumed in business combinations, estimates of the collectability of receivables, estimates of future discounts in performance-based contracts, evaluation of asset impairment, accrual of estimated liabilities and valuation of acquisition-related contingent consideration liabilities.

(d) Revenue recognition

Revenue is generated from contracts with various pricing arrangements, including:

- performance-based criteria, constituting approximately 44% of total revenue in fiscal year 2015;
- costs incurred plus a negotiated fee ("cost-plus") (29%);
- fixed-price (21%); and
- time-and-materials (6%).

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

1. Business and summary of significant accounting policies (Continued)

We recognize revenue on arrangements as work is performed and amounts are earned. We consider amounts to be earned once evidence of an arrangement has been obtained, services have been delivered, fees are fixed or determinable and collectability of revenue is reasonably assured.

We recognize revenue on performance-based contracts when earned, which occurs when we have achieved the performance goal. This revenue generally occurs when amounts are billable to customers and may result in revenue being recognized in irregular increments. In certain performance-based contracts, we may negotiate arrangements where we are reimbursed at higher levels at the beginning of an arrangement. Where we believe the rates in the latter part of the contract represent a significant and incremental discount to the customer, we recognize revenue at an average per-transaction rate. This results in a deferred revenue balance and requires us to estimate future volumes over the life of an arrangement. Adjustments to estimates of future volumes result in adjustments to revenue.

Revenue on cost-plus contracts is recognized based on costs incurred plus the negotiated fee earned. In certain contracts with the U.S. Federal Government, we may be paid an award fee, based upon the quality of the service we perform. Where this fee can be objectively determined, it is recognized ratably over the period of performance, which is between four and six months. Where the fee cannot be determined objectively, all revenue is deferred until the fee has been fixed.

We recognize revenue on fixed-priced contracts when earned, as services are provided. Revenue is generally recognized on a straight-line basis unless evidence suggests that revenue is earned or obligations are fulfilled in a different pattern. The timing of expense recognition may result in irregular profit margins.

For certain fixed-price contracts, primarily systems design, development and implementation, we generally recognize revenue based upon costs incurred to date and our anticipated gross profit. The cumulative impact of any revisions in estimated revenue and costs is recognized in the period in which the facts that give rise to the revision become known. Provisions for estimated losses on incomplete contracts are provided for in full in the period in which such losses become known. This policy may result in revenue being recognized at different points from amounts being billable. Where we enter into contracts where significant uncertainty exists over the ability of management to estimate the future costs, we will typically defer all revenue until such time as future costs are estimable or the system implementation is complete.

Revenue on time-and-materials contracts is recognized based on hours worked and expenses incurred.

Where contracts have multiple deliverables, we evaluate these deliverables at the inception of each contract and as each item is delivered. As part of this evaluation, we consider whether a delivered item has value to a customer on a stand-alone basis and whether the delivery of the undelivered items is considered probable and substantially within our control, if a general right of return exists. Where deliverables, or groups of deliverables, have both of these characteristics, we treat each deliverable item as a separate element in the arrangement, allocate a portion of the allocable arrangement consideration using the estimated relative selling price method to each element and apply the relevant revenue recognition guidance to each element.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

1. Business and summary of significant accounting policies (Continued)

Sales and purchases in jurisdictions subject to indirect taxes, such as value added tax, are recorded net of tax collected and paid.

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers*. This new standard will change the manner in which we evaluate revenue recognition for all contracts with customers, although the effect of the changes on revenue recognition will vary from contract to contract. We will adopt this standard during our 2019 fiscal year. The standard permits a retrospective or cumulative effect transition method. We anticipate that we will adopt the new standard using the retrospective method. We are continuing to evaluate the effect of this standard on our business.

(e) Cash and cash equivalents

We consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Where we are obliged to hold cash balances as collateral for lease, credit card or letter of credit arrangements, or where we hold funds on behalf of clients, this balance is reported within other current assets. The restricted cash balance was \$13.4 million and \$10.6 million at September 30, 2015 and 2014, respectively.

(f) Accounts receivable—billed and billable

Accounts receivable balances includes both those balances invoiced and those where amounts are ready to be invoiced and the funds are collectible within standard contract terms. We record our receivable balances at their face amount less an allowance for doubtful accounts. We re-evaluate our client receivables on a quarterly basis, especially receivables that are past due, and reassess our allowance for doubtful accounts based on specific client collection issues.

(g) Business combinations and goodwill

The purchase price of an acquired business is allocated to tangible assets, separately identifiable intangible assets acquired and liabilities assumed based upon their respective fair values. Any excess balance is recorded as goodwill. Costs incurred directly related to an acquisition, including legal, accounting and valuation services, are expensed as incurred.

Intangible assets are separately identified and valued using a third-party consultant. These assets are amortized on a straight-line basis over useful lives estimated at the time of the business combination.

Goodwill is not amortized but is subject to impairment testing on an annual basis, or more frequently if impairment indicators arise. Impairment testing is performed at the reporting unit level. A reporting unit is the operating segment, or a business one level below that operating segment (the component level) if discrete financial information is prepared and reviewed regularly by segment management. However, components are aggregated if they have similar economic characteristics. The evaluation is performed by comparing the fair value of the relevant reporting unit to the carrying value, including goodwill, of the reporting unit. If the fair value of the reporting unit exceeds the carrying value, no impairment loss is recognized. However, if the carrying value of the reporting unit exceeds the fair value, the goodwill of the reporting unit may be impaired.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

1. Business and summary of significant accounting policies (Continued)

Our reporting units are consistent with our operating segments, namely Health Services, U.S. Federal Services and Human Services. We perform our annual impairment test as of July 1 of each year. At July 1, 2015, we performed the annual impairment test and determined that there had been no impairment of goodwill. In performing this assessment, we utilized an income approach. Such an approach requires estimation of future operating cash flows including business growth, utilization of working capital and discount rates. The valuation of the business as a whole is compared to our market value at the date of the test in order to verify the calculation.

(h) Long-lived assets (excluding goodwill)

Property and equipment is recorded at cost. Depreciation is recorded over the assets' respective useful economic lives, which are not to exceed 39.5 years for our buildings and seven years for office furniture and equipment. Leasehold improvements are amortized over the shorter of their useful life or the remaining term of the lease. Repairs and maintenance costs are expensed as incurred.

All of the Company's capitalized software represents development costs for software that is intended for our internal use. Direct costs of time and material incurred for the development of application software for internal use are capitalized and amortized using the straight-line method over the estimated useful life of the software, ranging from three to eight years. Costs incurred for upgrades and enhancements that do not result in additional functionality are expensed as incurred.

Deferred contract costs consist of contractually recoverable direct set-up costs related to long-term service contracts. These costs include direct and incremental costs incurred prior to the commencement of providing service to our customer. These costs are expensed over the period the services are provided.

All these assets are depreciated on a straight-line basis.

We review long-lived assets for impairment whenever events or circumstances indicate that the carrying amount of an asset may not be fully recoverable. Our review is based on our projection of the undiscounted future operating cash flows of the related asset group. To the extent such projections indicate that future undiscounted cash flows are not sufficient to recover the carrying amount, we recognize a non-cash impairment charge to reduce the carrying amount to equal projected future discounted cash flows. No impairment charges were recorded in the three years ending September 30, 2015.

(i) Income taxes

Deferred tax liabilities and assets are determined based on the difference between the financial statement and tax basis of assets and liabilities and are measured by applying enacted tax rates and laws for the taxable years in which those differences are expected to reverse. In addition, a valuation allowance is recorded if it is believed more likely than not that a deferred tax asset will not be fully realized.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

1. Business and summary of significant accounting policies (Continued)

We recognize the financial statement benefit of a tax position only after determining that the relevant tax authority would "more likely than not" sustain the position following an audit. For tax positions meeting the "more likely than not" threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority.

(j) Foreign currency

For all foreign operations, the functional currency is the local currency. The assets and liabilities of foreign operations are translated into U.S. Dollars at period-end exchange rates, and revenue and expenses are translated at average exchange rates for the year. The resulting cumulative translation adjustment is included in accumulated other comprehensive income on the consolidated balance sheet. Gains and losses from foreign currency transactions are included in interest and other income and are typically immaterial.

(k) Contingencies

From time to time, we are involved in legal proceedings, including contract and employment claims, in the ordinary course of business. We assess the likelihood of any adverse judgments or outcomes to these contingencies, as well as potential ranges of probable losses and establish reserves accordingly. The amount of reserves required may change in future periods due to new developments in each matter or changes in approach to a matter such as a change in settlement strategy.

(l) Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between marketplace participants.

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and other amounts included within current assets and liabilities that meet the definition of a financial instrument approximate fair value due to the short-term nature of these balances.

We hold investments in a Rabbi Trust on behalf of our deferred compensation plan. These assets are recorded on our balance sheet at fair value. These assets have quoted prices in active markets. See Note 13 for further details.

During 2015, we entered into a derivative arrangement to reduce our exposure to interest rate fluctuations on our credit facility. The related liability of less than \$0.1 million is recorded on our balance sheet at fair value. The inputs to calculate this balance are based upon prices and other factors which are observable in similar markets. See Note 6 for further details.

In 2010, we acquired DeltaWare Systems, Inc. As part of the acquisition price, we agreed to pay contingent consideration based upon future sales of this business. This liability is recorded on our balance sheet at estimated fair value. The valuation of this asset is derived from internal estimates of future performance and not from inputs that are observable. See Note 5 for further details.

(m) Reclassifications

Certain financial results have been reclassified to conform to the current year presentation.

We have made changes to our segment presentation. See Note 2. "Business segments" for more information.

2. Business segments

The Company is organized and managed based upon the services it provides.

As our business changes, we revise our internal reporting and the manner in which our Chief Executive Officer operates and reviews the results of our business. This reporting forms the basis for our external reporting of our business segments. During the fourth quarter of fiscal year 2015, we revised our reporting structure to accommodate three business segments, adding a U.S. Federal Services Segment that comprises the work we perform for the U.S. Federal Government, as well as some U.S.-based appeals work. The businesses within this new segment were previously included within our Health Services Segment and include the results of the businesses acquired with Acentia, LLC (Acentia) in April 2015. We made these changes to our operations and internal reporting due to our acknowledgement that the U.S. Federal Government is a distinct customer with different procurement methods and regulations, the scale of our business with the U.S. Federal Government and the growth of our federal business from a primarily health-focused business to a broader business covering several federal agencies.

Expenses which are not specifically included in the segments are included in the corporate category, which primarily consist of amortization of intangible assets and the direct costs of acquisitions. These corporate costs are excluded from measuring each segment's operating performance. We also transferred a small division from our Health Services Segment to our Human Services Segment.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

2. Business segments (Continued)

The results of these segments for the three years ended September 30, 2015 are shown below (in thousands). These results are presented for all years on a basis consistent with our existing business segments.

	Year ended September 30,		
	2015	2014	2013
Revenue:			
Health Services	\$ 1,109,238	\$ 906,650	\$ 691,565

U.S. Federal Services	59,394	63,098	42,566
Human Services	60,244	53,158	61,033
Amortization of intangible assets	(9,348)	(5,890)	(4,883)
Acquisition-related expenses	(4,745)	—	(2,168)
Other	(6)	(614)	(598)
Total	<u>\$ 259,832</u>	<u>\$ 225,308</u>	<u>\$ 185,155</u>
Depreciation and amortization:			
Health Services	\$ 27,694	\$ 23,994	\$ 14,768
U.S. Federal Services	10,363	9,557	3,355
Human Services	8,792	9,227	12,810
Total	<u>\$ 46,849</u>	<u>\$ 42,778</u>	<u>\$ 30,933</u>

Acquisition-related expenses are costs directly incurred from the purchases of Acentia and Remploy in 2015 and HML in 2013, as well as any unsuccessful transactions.

We principally operate in the United States, the United Kingdom, Australia, Canada, Saudi Arabia and New Zealand.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****2. Business segments (Continued)**

Our revenue was distributed as follows (in thousands):

	Year ended September 30,		
	2015	2014	2013
United States	\$ 1,559,769	\$ 1,306,026	\$ 999,419
United Kingdom	267,702	128,363	65,718
Australia	178,167	170,727	157,383
Rest of World	94,183	95,796	108,759
Total	<u>\$ 2,099,821</u>	<u>\$ 1,700,912</u>	<u>\$ 1,331,279</u>

Identifiable assets for the segments are shown below (in thousands):

	Year Ended September 30,	
	2015	2014
Health Services	\$ 483,215	\$ 415,821
U.S. Federal Services	441,521	95,367
Human Services	189,855	152,243
Corporate/Other	165,580	237,565
Total	<u>\$ 1,280,171</u>	<u>\$ 900,996</u>

Our long-lived assets, consisting of property and equipment, capitalized software costs and deferred compensation plan assets, were distributed as follows (in thousands):

	Year Ended September 30,	
	2015	2014
United States	\$ 120,130	\$ 93,500
Australia	33,591	8,769
Canada	19,720	27,043
United Kingdom	16,141	7,731
Rest of World	41	63
Total	<u>\$ 189,623</u>	<u>\$ 137,106</u>

3. Concentrations of credit risk and major customers

Financial instruments that potentially subject us to significant concentrations of credit risk consist primarily of accounts receivable, billed, billable and unbilled.

The majority of our business is in the United States. Revenue from foreign projects and offices was 26%, 23% and 25% of total revenue for the years ended September 30, 2015, 2014 and 2013, respectively.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****3. Concentrations of credit risk and major customers (Continued)**

In the year ended September 30, 2015, approximately 50% of our total revenue was derived from state government agencies, many of whose programs received significant federal funding, 22% from foreign government agencies, 20% from U.S.-based Federal Government agencies, and 8% from other sources including local municipalities and commercial customers. We believe that the credit risk associated with our receivables is limited due to the credit worthiness of these customers.

During fiscal year 2015, the U.S. Federal Government and the state of New York each provided more than 10% of our annual revenue. Revenue from the U.S. Federal Government was exclusively within the U.S. Federal Segment. Revenue from the state of New York was exclusively within our Health Services Segment. The proportion of revenue recognized from customers providing in excess of 10% of our consolidated revenue for each of the three years ended September 30, 2015 was from the following governments:

	Year ended September 30,		
	2015	2014	2013
U.S. Federal	20%	17%	12%
New York	10%	*	*
Australia	*	10%	12%
California	*	10%	*
Texas	*	10%	14%

* Government provided less than 10% of our consolidated revenue in this year.

4. Earnings per share

The weighted average number of shares outstanding used to compute earnings per shares was as follows (in thousands):

	Year ended September 30,		
	2015	2014	2013
Weighted average shares outstanding	66,682	67,680	68,165
Effect of employee stock options and unvested restricted stock awards	593	1,407	1,728
Denominator for diluted earnings per share	<u>67,275</u>	<u>69,087</u>	<u>69,893</u>

For the year ended September 30, 2015 and 2014, 15,000 and 286,000 unvested restricted stock units, respectively, have been excluded from the calculation of diluted earnings per share as the effect of including them would have been anti-dilutive.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

5. Business combinations

Acentia

On April 1, 2015 (the "acquisition date"), we acquired 100% of the ownership interests of Acentia for cash consideration of \$293.5 million.

Acentia provides system modernization, software development, program management and other information technology services and solutions to the U.S. Federal Government. We acquired Acentia, among other reasons, to expand our ability to provide complementary business services and offerings across government markets. The acquired assets and liabilities have been integrated into our U.S. Federal Services Segment.

We have completed the process of allocating the acquisition price to the fair value of the assets and liabilities of Acentia at the acquisition date with the exception of balances relating to current and deferred taxes (in thousands).

	Updated through June 30, 2015	Adjustments	Updated through September 30, 2015
Cash consideration, net of cash acquired	\$ 292,815	\$ 689	\$ 293,504
Accounts receivable and unbilled receivables	\$ 35,060	\$ 273	\$ 35,333
Other current assets	5,151	(101)	5,050
Property and equipment	1,619	521	2,140
Intangible assets—customer relationships	69,900	—	69,900
Total identifiable assets acquired	111,730	693	112,423
Accounts payable and other liabilities	32,619	(193)	32,426
Deferred revenue	251	—	251
Capital lease obligations	—	567	567
Total liabilities assumed	32,870	374	33,244
Net identifiable assets acquired	78,860	319	79,179
Goodwill	213,955	370	214,325
Net assets acquired	\$ 292,815	\$ 689	\$ 293,504

The excess of the acquisition date consideration over the estimated fair value of the net assets acquired was recorded as goodwill. We consider the goodwill to represent the value of the assembled workforce of Acentia, as well as the enhanced knowledge and capabilities resulting from this business combination. Approximately \$150 million of the goodwill balance is anticipated to be deductible for tax purposes.

The intangible assets acquired represent customer relationships. These will be amortized on a straight-line basis over 14 years.

During the year ended September 30, 2015, Acentia contributed \$104.0 million and \$8.9 million of revenue and operating income, respectively.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****5. Business combinations (Continued)**

The following table presents certain results for the years ended September 30, 2015 and 2014 as though the acquisition of Acentia had occurred on October 1, 2013. The unaudited pro forma information is presented for informational purposes only and is not necessarily indicative of our results if the acquisition had taken place on that date. The pro forma results presented below include amortization charges for acquired intangible assets and adjustments to interest expense incurred and exclude related acquisition expenses (in thousands, except per share data).

	Unaudited pro forma results for the year ended September 30,	
	2015	2014
Revenue	\$ 2,203,347	\$ 1,912,423
Net income	165,822	155,589
Basic earnings per share attributable to MAXIMUS	\$ 2.48	\$ 2.30
Diluted earnings per share attributable to MAXIMUS	\$ 2.44	\$ 2.25

Remploy

On April 7, 2015 (the "Remploy acquisition date"), we acquired 70% of the ownership interests of Remploy (2015) Limited, whose assets had previously operated under the "Remploy" tradename. The remaining 30% is held in a trust for the benefit of the employees. The acquisition consideration was \$3.0 million (£2.0 million). The purchase agreement stipulated that the net assets of Remploy were zero on the Remploy acquisition date as calculated using U.K. accounting principles. The noncontrolling interest was valued at \$0.9 million (£0.6 million) on the Remploy acquisition date.

Remploy provides services to the U.K. Government, particularly in supporting employment opportunities for the disabled. We acquired Remploy to complement our welfare-to-work services in the U.K. The acquired assets and liabilities have been integrated into our Human Services Segment. The principal asset held by Remploy on the Remploy acquisition date was a contract worth \$4.6 million. This asset will be amortized over two years on a straight-line basis.

Centacare

On January 31, 2014, we acquired certain businesses from Centacare for \$2.7 million (\$3.1 million Australian) in cash. The operations of these businesses are consistent with the welfare-to-work services we provide in Australia. The Company acquired these businesses in order to expand our operations in Australia.

Of the purchase price, we allocated \$3.2 million to intangible assets, representing customer relationships, and \$0.5 million to deferred revenue. The intangible assets will be amortized over the anticipated lives of the customer relationships, which are approximately four years.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****5. Business combinations (Continued)***Health Management Limited*

On July 1, 2013 (the "HML acquisition date"), we acquired 100% of the share capital of Health Management Limited (HML) for total consideration of \$77.9 million (£51.1 million). The consideration was comprised of \$71.4 million (£46.9 million) in cash and 202,972 shares of MAXIMUS stock worth \$6.4 million (£4.2 million).

HML provides independent health assessments within the U.K. We acquired HML, among other reasons, to expand the Company's independent medical assessment business and to establish a strong presence in the U.K. health services market. The acquired assets and business have been integrated into our Health Services Segment.

We allocated the acquisition price to the fair value of the assets and liabilities of HML at the HML acquisition date. The assets and liabilities of HML recorded in our financial statements at the acquisition date are summarized below (in thousands):

	HML balance sheet on HML acquisition date
Cash consideration, net of cash acquired	\$ 71,435
Stock consideration	6,425
Purchase consideration, net of cash acquired	<u>\$ 77,860</u>
Accounts receivable and unbilled receivables	\$ 7,671
Other current assets	1,382
Property and equipment	2,752
Intangible assets	20,542
Total identifiable assets acquired	<u>32,347</u>
Accounts payable and other liabilities	6,228
Deferred revenue	1,149
Current income tax liability	756
Deferred tax liability	4,701
Total liabilities assumed	<u>12,834</u>
Net identifiable assets acquired	19,513
Goodwill	58,347
Net assets acquired	<u>\$ 77,860</u>

The difference between the HML acquisition date fair value of the consideration and the estimated fair value of the net assets acquired was recorded as goodwill. We consider the goodwill to represent benefits that are expected to be realized as a result of the business combination, including, but not limited to, the assembled workforce and the benefit of the enhanced knowledge and capabilities of HML. Goodwill is not deductible for tax purposes.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****5. Business combinations (Continued)**

The valuation of the intangible assets acquired is summarized below (in thousands).

	<u>Useful life</u>	<u>Fair value</u>
Customer relationships	20 years	\$ 19,933
Technology-based intangible assets	2 years	609
Total intangible assets		<u>\$ 20,542</u>

The weighted average amortization period was 19.5 years.

DeltaWare Systems, Inc.

On February 10, 2010 (the "DeltaWare acquisition date"), we acquired 100% of the share capital of DeltaWare Systems, Inc. (DeltaWare).

As part of the acquisition agreement, we must pay the former owners of DeltaWare up to \$4.0 million (Canadian). These payments, considered contingent consideration, will be made based upon sales of DeltaWare's products in particular geographic markets prior to December 2016. No such sales have been made to date and the likelihood of future sales between this time and December 2016 is considered low. During fiscal year 2015, we have reduced our estimate of our obligation to zero. We review the likelihood of future sales on a quarterly basis and, to the extent that sales opportunities are identified, proposals submitted or contracts won, we update our probability weighted assessment of payment. Changes in this assessment result in an expense or credit to earnings. The contingent consideration payable for any single contract signed would be based upon the population of the area served but would be capped at \$1.0 million (Canadian) per sale. As the inputs required for the valuation of this liability require significant judgment, they are considered to be Level 3 inputs under the Financial Accounting Standards Board's classification of assets and liabilities subject to fair value measurement.

The effect on the financial statements is summarized below (in thousands):

	<u>Contingent consideration</u>
Balance at September 30, 2014	\$ 358
Reduction in estimate	(302)
Foreign currency translation	(56)
Balance at September 30, 2015	<u>\$ —</u>

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

6. Debt

Credit Facilities

On March 9, 2015, we entered into an amendment to our unsecured credit agreement (the "Credit Agreement"). The Credit Agreement, as amended, provides for a revolving line of credit up to \$400 million that may be used for revolving loans, swingline loans (subject to a sublimit of \$5 million), and to request letters of credit, subject to a sublimit of \$30 million. The line of credit is available for general corporate purposes, including working capital, capital expenditures and acquisitions. The arrangement will terminate on March 9, 2020, at which time all outstanding borrowings must be repaid.

On April 1, 2015, we borrowed \$225 million under the Credit Agreement in order to fund our acquisition of Acentia. Additional borrowings and repayments were subsequently made to fund working capital and capital expenditure requirements. The Credit Agreement permits us to make borrowings in currencies other than the United States Dollar. At September 30, 2015, we have U.S. Dollar borrowings of \$202 million and Canadian Dollar borrowings of \$7.7 million (10.3 million Canadian Dollars). In addition to borrowings under the Credit Facility, we have an outstanding loan of \$0.9 million (1.2 million Canadian Dollars) with the Atlantic Innovation Fund of Canada. There is no interest charge on this loan. The Atlantic Innovation Fund loan is repayable over 27 remaining quarterly installments.

At September 30, 2015, we held three letters of credit under the Credit Agreement totaling \$0.8 million. Each of these letters of credit may be called by vendors in the event that the Company defaults under the terms of a contract, the probability of which we believe is remote. In addition, two letters of credit totaling \$3.0 million, secured with restricted cash balances, are held with another financial institution to cover similar obligations to customers.

The Credit Agreement requires us to comply with certain financial covenants and other covenants including a maximum total leverage ratio and a minimum fixed charge coverage ratio. We were in compliance with all covenants as of September 30, 2015. Our obligations under the Credit Agreement are guaranteed by material domestic subsidiaries of the Company. The Credit Facility is currently unsecured. In the event that our total leverage ratio, as defined in the credit agreement, exceeds 2.5 to 1, the Credit Agreement will become secured by the assets of the parent company and certain of its subsidiaries. At September 30, 2015, our total leverage ratio was less than 1.0:1.0.

The Credit Agreement provides for an annual commitment fee payable on funds not borrowed or utilized for letters of credit. This charge is based upon our leverage and varies between 0.15% and 0.3%. Borrowings under the Credit Agreement bear interest at our choice at either (a) a Base Rate plus a margin that varies between 0.0% and 0.75% per year, (b) a Eurocurrency Rate plus an applicable margin that varies between 1.0% and 1.75% per year or (c) an Index Rate plus an applicable margin which varies between 1.0% and 1.75% per year. The Base Rate, Eurocurrency Rate and Index Rate are defined by the Credit Agreement. As of September 30, 2015, interest accrued at a rate of 1.19%.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

6. Debt (Continued)*Derivative Arrangement*

In order to add stability to our interest expense and manage our exposure to interest rate movements, we entered into a derivative arrangement to fix payments on part of our outstanding loan balance. We will pay a fixed rate of interest to a financial institution and receive a balance equivalent to the floating rate payable. At September 30, 2015, payments on \$53.3 million of our principal balance are fixed. The principal balance subject to this derivative arrangement will decline through September 30, 2016.

At September 30, 2015, the fair value of this derivative instrument was less than \$0.1 million and included in accounts payable and accrued liabilities in the consolidated balance sheets. As this cash flow hedge is considered effective, the loss related to the decline in the fair value of this derivative instrument is reported in Accumulated Other Comprehensive Income (AOCI) in the Statement of Comprehensive Income.

We have agreements with each of our interest rate swap counterparties that contain a provision providing that we could be declared in default on our derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to our default on the indebtedness.

During the year ended September 30, 2015, we made interest payments of \$1.2 million.

Capital Leases

As of September 30, 2015, we recorded capital lease obligations of \$0.4 million, which represent liabilities due under capital leases for fixed assets acquired with Acentia. The gross amount of assets recorded under capital leases was \$0.5 million with accumulated amortization of \$0.2 million as of September 30, 2015. The future minimum lease payments required to be made under the capital leases as of September 30, 2015 are approximately \$0.2 million per fiscal year for the next two years.

7. Goodwill and intangible assets

Changes in goodwill for the years ended September 30, 2015 and 2014 are as follows (in thousands):

	Health Services	U.S. Federal Services	Human Services	Total
Balance as of September 30, 2013	\$ 118,897	\$ 6,199	\$ 46,771	\$ 171,867
Adjustment to goodwill acquired with HML	31	—	—	31
Foreign currency translation	(207)	—	(1,065)	(1,272)
Balance as of September 30, 2014	118,721	6,199	45,706	170,626
Goodwill acquired with Acentia	—	214,325	—	214,325
Foreign currency translation	(5,294)	—	(3,355)	(8,649)
Balance as of September 30, 2015	<u>\$ 113,427</u>	<u>\$ 220,524</u>	<u>\$ 42,351</u>	<u>\$ 376,302</u>

There have been no impairment charges in our goodwill.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

7. Goodwill and intangible assets (Continued)

The following table sets forth the components of intangible assets (in thousands):

	As of September 30, 2015			As of September 30, 2014		
	Cost	Accumulated Amortization	Intangible Assets, net	Cost	Accumulated Amortization	Intangible Assets, net
Customer contracts and relationships	\$ 114,736	\$ 15,100	\$ 99,636	\$ 42,403	\$ 7,821	\$ 34,582
Trademarks and trade names	4,277	2,866	1,411	4,374	2,102	2,272
Technology-based intangible assets	8,665	7,354	1,311	9,295	6,910	2,385
Total	\$ 127,678	\$ 25,320	\$ 102,358	\$ 56,072	\$ 16,833	\$ 39,239

The intangible assets include \$4.0 million of fully amortized technology-based assets still in use. Our intangible assets have a weighted average remaining life of 12.5 years, comprising 12.8 years for customer contracts and relationships, 2.0 years for trademarks and trade names and 2.5 years for technology-based intangible assets. Estimated future amortization expense is estimated as follows (in thousands):

Year ending September 30, 2016	\$ 12,619
Year ending September 30, 2017	11,045
Year ending September 30, 2018	8,797
Year ending September 30, 2019	7,943
Year ending September 30, 2020	6,848

8. Property and equipment

Property and equipment, at cost, consists of the following (in thousands):

	As of September 30,	
	2015	2014
Land	\$ 1,738	\$ 1,738
Building and improvements	11,716	11,707
Office furniture and equipment	245,577	177,939
Leasehold improvements	39,569	23,124
	298,600	214,508
Less: Accumulated depreciation and amortization	(160,770)	(134,262)
Total property and equipment, net	\$ 137,830	\$ 80,246

Fixed asset depreciation expense for the years ended September 30, 2015, 2014 and 2013 was \$37.0 million, \$32.9 million and \$26.3 million, respectively. In fiscal year 2015, the net assets and expense relating to assets held under capital leases were \$0.4 million and \$0.2 million, respectively.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****9. Capitalized software**

Capitalized software consists of the following (in thousands):

	As of September 30,	
	2015	2014
Capitalized software	\$ 73,584	\$ 72,758
Less: Accumulated amortization	(41,101)	(33,024)
Total Software development costs, net	<u>\$ 32,483</u>	<u>\$ 39,734</u>

Capitalized software amortization expense for the years ended September 30, 2015, 2014 and 2013 was \$9.9 million, \$9.9 million and \$4.6 million, respectively.

10. Deferred contract costs

Deferred contract costs consist of contractually recoverable direct set-up costs relating to long-term service contracts. These costs include direct and incremental costs incurred prior to the commencement of us providing contracted services to our customers. These costs are expensed over the period the services are provided. Deferred contract costs consist of the following (in thousands):

	As of September 30,	
	2015	2014
Deferred contract costs	\$ 27,282	\$ 25,489
Less: accumulated amortization	(8,156)	(13,443)
Total deferred contract costs, net	<u>\$ 19,126</u>	<u>\$ 12,046</u>

11. Billed and unbilled receivables

Changes in the reserves against current billed, billable and unbilled accounts receivable were as follows (in thousands):

	Year ended September 30,		
	2015	2014	2013
Balance at beginning of year	\$ 3,138	\$ 3,828	\$ 3,975
Additions to reserve	2,690	1,767	2,334
Deductions	(2,443)	(2,457)	(2,481)
Balance at end of year	<u>\$ 3,385</u>	<u>\$ 3,138</u>	<u>\$ 3,828</u>

In evaluating the net realizable value of accounts receivable, we consider such factors as current economic trends, customer credit-worthiness, and changes in the customer payment terms and collection trends. Changes in the assumptions used in analyzing a specific account receivable may result in a reserve being recognized in the period in which the change occurs.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****11. Billed and unbilled receivables (Continued)**

At September 30, 2015 and 2014, \$12.1 million and \$8.8 million of our unbilled receivables related to amounts pursuant to contractual retainage provisions. We anticipate that the majority of the fiscal 2015 balance will be collected during the 2016 fiscal year.

12. Commitments and contingencies*Performance bonds*

Certain contracts require us to provide a surety bond as a guarantee of performance. At September 30, 2015, we had performance bond commitments totaling \$27.3 million. These bonds are typically renewed annually and remain in place until the contractual obligations have been satisfied. Although the triggering events vary from contract to contract, in general we would only be liable for the amount of these guarantees in the event of default in our performance of our obligations under each contract, the probability of which we believe is remote.

Operating Leases

We lease office space and equipment under various operating leases. Lease expense for the years ended September 30, 2015, 2014 and 2013 was \$67.1 million, \$61.8 million and \$49.0 million, respectively. Sublease income for the year ended September 30, 2015 was \$0.5 million. Our operating leases may contain rent escalations or concessions. Lease expense is recorded on a straight-line basis over the life of the respective lease.

Minimum future lease commitments under leases in effect as of September 30, 2015 are as follows (in thousands):

	<u>Office space</u>	<u>Equipment</u>	<u>Total</u>
Year ended September 30,			
2016	\$ 66,172	\$ 4,720	\$ 70,892
2017	52,745	4,131	56,876
2018	37,475	3,417	40,892
2019	27,004	2,689	29,693
2020	16,971	1,534	18,505
Thereafter	4,919	—	4,919
Total minimum lease payments	<u>\$ 205,286</u>	<u>\$ 16,491</u>	<u>\$ 221,777</u>

We anticipate future sublease income of \$1.2 million per fiscal year through fiscal year 2020.

Acquired loss-making contract

As part of the acquisition of PSI in April 2012, we acquired a systems-integration contract that was anticipated to record significant future losses. The fair value of the obligation to provide these services at a loss was calculated and recorded on our balance sheet at acquisition as deferred revenue of \$15.1 million.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

12. Commitments and contingencies (Continued)

The contract was an arrangement that included both significant production and customization of software as well as postcontract customer support for these services. As we were unable to estimate the costs of providing these services, management deferred all revenue and costs related to service in anticipation of recognizing revenue at the commencement of the postcontract customer support services.

In February 2013, we received a formal notice of termination for convenience for this contract. The work was terminated as part of a broad, state-wide initiative to focus resources on a select number of projects. At the termination of this agreement, we reimbursed the client for certain funds received and undertook to provide future services. All other obligations to provide services have been extinguished and no material future costs will be incurred. Accordingly, revenue of \$16.0 million was recognized in the year ended September 30, 2013. In addition, costs of \$5.1 million, including costs which had been deferred, were recognized in the same period for an operating profit of \$10.9 million.

Employment agreements

We have an employment agreement with our Chief Executive Officer with a term ending in April 2018.

Collective bargaining agreements

Approximately 18% of our employees are covered by collective bargaining agreements or similar arrangements.

13. Employee benefit plans and deferred compensation

We have 401(k) plans for the benefit of employees who meet certain eligibility requirements. The plans provide for company match, specified company contributions and discretionary company contributions. During the years ended September 30, 2015, 2014 and 2013, we contributed \$4.7 million, \$4.3 million and \$3.8 million to the 401(k) plans, respectively.

We also have a deferred compensation plan, which is a non-qualified plan available to a restricted number of highly compensated employees. The plan enables participants to defer compensation for tax purposes. These deferred employee contributions are held within a rabbi trust with investments directed by the respective employees. The assets of the rabbi trust are available to satisfy the claims of general creditors in the event of bankruptcy. The assets of the plan are sufficient to meet 90% of the liabilities as of September 30, 2015. The assets within the rabbi trust include \$8.7 million invested in mutual funds which have quoted prices in active markets. These assets, as well as the related employee liabilities, are recorded at fair value with changes in fair value being recorded in the statement of operations.

14. Equity

Stock compensation

At September 30, 2015, 2.1 million shares remained available for grants under our 2011 Equity Incentive Plan. We typically issue new shares in satisfying our obligations under our stock plans.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

14. Equity (Continued)

We grant equity awards to officers, employees and directors in the form of restricted stock units (RSUs). RSUs issued generally vest ratably over one or five years. The fair value of the RSUs, based on our stock price at the grant date, is expensed in equal installments over the vesting period. For the fiscal years ended September 30, 2015, 2014 and 2013, compensation expense recognized related to RSUs was \$17.2 million, \$17.3 million and \$14.6 million, respectively. Employees who are granted RSUs also receive dividend-equivalent payments in the form of additional RSUs. However, until the shares are issued, they have no voting rights and employees may not buy or sell these RSUs. In the event that an award is forfeited, the dividend-equivalent payments received by the holder with respect to that award are also forfeited.

A summary of our RSU activity for the year ended September 30, 2015, is as follows:

	Shares	Weighted-Average Grant-Date Fair Value
Non-vested shares outstanding at September 30, 2014	1,884,901	\$ 24.32
Granted	382,727	50.82
Vested	(1,376,096)	20.05
Forfeited	(29,992)	37.15
Non-vested shares outstanding at September 30, 2015	<u>861,540</u>	<u>42.48</u>

In addition to the nonvested shares, certain shareholders held approximately 0.8 million vested awards whose issuance has been deferred.

The weighted-average grant-date fair value of RSUs granted in the years ended September 30, 2014 and 2013 was \$46.49 and \$30.66, respectively. The total fair value of RSUs which vested during the years ended September 30, 2015, 2014 and 2013 was \$68.6 million, \$38.7 million and \$40.8 million, respectively. As of September 30, 2015, the total remaining unrecognized compensation cost related to unvested RSUs was \$33.1 million. This charge is expected to be realized over the next four years, with a weighted average life of 1.5 years.

Prior to fiscal year 2008, we granted stock options to certain employees. These were granted at exercise prices equal to the fair market value of our common stock at the date of grant, vested over a period of four years and expired ten years after the date of the grant. No compensation expenses related to stock options were recorded in any of the years shown.

A summary of our stock option activity for the year ended September 30, 2015, is as follows:

	Options	Weighted Average Exercise Price
Outstanding at September 30, 2014	260,000	\$ 9.00
Exercised	(100,000)	8.68
Expired	—	—
Outstanding and exercisable at September 30, 2015	<u>160,000</u>	<u>9.18</u>

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****14. Equity (Continued)**

The intrinsic value of outstanding and exercisable stock options at September 30, 2015 was \$8.1 million with a weighted average remaining life of 1.5 years.

The following table summarizes information pertaining to the stock options vested and exercised for the years presented (in thousands):

	Year ended September 30,		
	2015	2014	2013
Aggregate intrinsic value of all stock options exercised	\$ 5,536	\$ 5,698	\$ 7,081
Net cash proceeds from exercise of stock options	868	1,362	2,168

The total income tax benefit recognized in the income statement for share-based compensation arrangements was \$7.1 million, \$7.0 million and \$5.2 million for the fiscal years ended September 30, 2015, 2014 and 2013, respectively.

Employees are permitted to forfeit a certain number of shares to cover their personal tax liability, with the Company making tax payments to the relevant authorities. These payments are reported in the statements of cash flows as financing cash flows. During the year ended September 30, 2015, our employees forfeited approximately 195,000 shares in this manner, resulting in a liability of \$11.6 million.

Cash flows resulting from the tax benefits generated from tax deductions in excess of the compensation costs recognized for those options and RSUs (excess tax benefits) are classified as financing cash flows.

Stock repurchase programs

Under a resolution adopted in August 2015, the Board of Directors authorized the repurchase, at management's discretion, of up to an aggregate of \$200 million of our common stock. This resolution superseded similar authorizations from November 2011 and June 2014. The resolution also authorizes the use of option exercise proceeds for the repurchase of our common stock. During the years ended September 30, 2015, 2014 and 2013, we repurchased 1.6 million, 2.7 million and 1.0 million common shares at a cost of \$82.8 million, \$113.1 million and \$32.5 million, respectively. At September 30, 2015, \$168.6 million remained available for future stock repurchases.

We acquired an additional 0.3 million common shares at a cost of \$14.4 million million between October 1, 2015 and November 16, 2015.

15. Income taxes

The components of income before income taxes and the corresponding provision for income taxes are as follows (in thousands):

	Year ended September 30,		
	2015	2014	2013
Income before income taxes:			
United States	\$ 232,359	\$ 180,820	\$ 139,716

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

15. Income taxes (Continued)

At September 30, 2015, our foreign subsidiaries held approximately \$190 million of cumulative earnings. We consider undistributed earnings of our foreign subsidiaries to be indefinitely reinvested outside of the United States and, accordingly, no U.S. deferred taxes have been recorded with respect to such earnings in accordance with the relevant accounting guidance for income taxes. Should the earnings be remitted as dividends, we may be subject to additional U.S. taxes, net of allowable foreign tax credits. It is not practicable to estimate the amount of any additional taxes which may be payable on the undistributed earnings given the various tax planning alternatives we could employ should we decide to repatriate these earnings in a tax-efficient manner.

We had \$2.1 million and \$4.5 million of net operating loss carryforwards in the U.S. at September 30, 2015 and 2014, respectively. These balances resulted in deferred tax assets of \$0.7 million and \$2.4 million, respectively, and relate exclusively to the losses held by PSI prior to the acquisition in 2012. Although our ability to use these loss carryforwards will be restricted to an annual allowance, we have sufficient profits and time within the jurisdictions where losses have arisen to ensure that these losses will be utilized in full through fiscal year 2017. Accordingly, no reserve has been recorded against these balances. These net operating loss carryforwards expire between 2027 and 2031.

We had \$0.4 million and \$0.8 million of net operating loss carryforwards in Canada at September 30, 2015 and 2014, respectively, resulting in deferred tax assets of \$0.1 million and \$0.2 million. These net operating loss carryforwards expire through 2027 to 2031.

Cash paid for income taxes during the years ended September 30, 2015, 2014, and 2013 was \$81.3 million, \$79.4 million and \$58.2 million, respectively.

The provision for income taxes includes all provision to return adjustments included in the year recognized in the financial statements.

We account for uncertain tax positions by recognizing the financial statement effects of a tax position only when, based upon the technical merits, it is "more-likely-than-not" that the position will be sustained upon examination. Our net unrecognized tax benefits totaled \$1.0 million and \$1.1 million at September 30, 2015 and 2014, respectively. The total amount of unrecognized tax benefits that, if recognized, would affect our annual effective income tax rate was \$1.0 million at September 30, 2015.

We report interest and penalties as a component of income tax expense. In the fiscal years ending September 30, 2015, 2014 and 2013, we recognized interest expense relating to unrecognized tax benefits of less than \$0.1 million in each year. The net liability balance at September 30, 2015 and 2014 includes approximately \$0.5 million of interest and penalties.

MAXIMUS, Inc.**Notes to Consolidated Financial Statements (Continued)****For the years ended September 30, 2015, 2014 and 2013****15. Income taxes (Continued)**

We recognize and present uncertain tax positions on a gross basis (i.e., without regard to likely offsets for deferred tax assets, deductions and/or credits that would result from payment of uncertain tax amounts). The reconciliation of the beginning and ending amount of gross unrecognized tax benefits was as follows (in thousands):

	Year Ended September 30,		
	2015	2014	2013
Balance at beginning of year	\$ 812	\$ 812	\$ 1,059
Lapse of statute of limitation	(200)	—	(230)
Reductions for tax positions of prior years	(83)	—	(17)
Balance at end of year	<u>\$ 529</u>	<u>\$ 812</u>	<u>\$ 812</u>

We file income tax returns in the U.S. federal jurisdiction and in various state and foreign jurisdictions. We are no longer subject to federal income tax examinations for years before 2012 and to state and local income tax examinations by tax authorities for years before 2010. In international jurisdictions, similar rules apply to filed income tax returns, although the tax examination limitations and requirements may vary. We are no longer subject to audit by tax authorities for foreign jurisdictions for years prior to 2010.

16. Quarterly information (unaudited)

Set forth below are selected quarterly statement of operations data for the fiscal years ended September 30, 2015 and 2014. We derived this information from unaudited quarterly financial statements that include, in the opinion of our management, all adjustments necessary for a fair presentation of the information for such periods. Results of operations for any fiscal quarter are not necessarily indicative of results for any future period.

MAXIMUS, Inc.

Notes to Consolidated Financial Statements (Continued)

For the years ended September 30, 2015, 2014 and 2013

16. Quarterly information (unaudited) (Continued)

Earnings per share amounts are computed independently each quarter. As a result, the sum of each quarter's earnings per share amount may not equal the total earnings per share amount for the respective year.

17. Subsequent Event

Dividend

On October 2, 2015, our Board of Directors declared a quarterly cash dividend of \$0.045 for each share of the Company's common stock outstanding. The dividend will be paid on November 30, 2015 to shareholders of record on November 13, 2015. Based on the number of shares outstanding, the payment will be approximately \$2.9 million.

ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

ITEM 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this Annual Report on Form 10-K. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective and designed to ensure that the information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting. Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of September 30, 2015. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the *Internal Control—Integrated Framework (2013)*. Based on our assessment, we believe that as of September 30, 2015, our internal control over financial reporting was effective based on those criteria.

The attestation report concerning the effectiveness of our internal control over financial reporting as of September 30, 2015, issued by Ernst & Young LLP, the independent registered public accounting firm who also audited our consolidated financial statements, is included following this Item 9A.

In April 2015, the Company acquired Acentia, LLC ("Acentia"). Acentia contributed approximately 4.3% and 3.8% of our total and net assets, respectively, at September 30, 2015 and 5.0% and 6.5% of our revenue and net income, respectively, for the year ended September 30, 2015. As permitted by the Securities and Exchange Commission, we excluded the acquired companies from our assessment of the effectiveness of internal controls over financial reporting at September 30, 2015.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) identified in connection with the evaluation of our internal control that occurred during our fourth fiscal quarter of 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**REPORT OF ERNST & YOUNG LLP,
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM,
REGARDING INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Board of Directors and Shareholders
MAXIMUS, Inc.

We have audited MAXIMUS, Inc.'s internal control over financial reporting as of September 30, 2015, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). MAXIMUS, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Acentia, Inc., which is included in the 2015 consolidated financial statements of MAXIMUS, Inc. and constituted 4.3% and 3.8% of total and net assets, respectively, as of September 30, 2015 and 5.0% and 6.5% of revenues and net income, respectively, for the year then ended. Our audit of internal control over financial reporting of MAXIMUS, Inc. also did not include an evaluation of the internal control over financial reporting of Acentia, Inc.

In our opinion, MAXIMUS, Inc. maintained, in all material respects, effective internal control over financial reporting as of September 30, 2015, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of MAXIMUS, Inc. as of September 30, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended September 30, 2015 of MAXIMUS, Inc. and our report dated November 16, 2015 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

McLean, Virginia
November 16, 2015

PART III

The information required by Items 10, 11, 12, 13 and 14 of Part III of Form 10-K has been omitted in reliance on General Instruction G(3) to Form 10-K and is incorporated herein by reference to the Company's Proxy Statement relating to its 2016 Annual Meeting of Shareholders (the "Proxy Statement") to be filed with the SEC, except as otherwise indicated below:

ITEM 10. Directors, Executive Officers and Corporate Governance.

The information required by this Item is incorporated by reference to the Proxy Statement.

ITEM 11. Executive Compensation.

The information required by this Item is incorporated by reference to the Proxy Statement.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Except for the information disclosed in this Item below, the information required by this Item is incorporated by reference to the Proxy Statement.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table provides information as of September 30, 2015 with respect to shares of our common stock that may be issued under our existing equity compensation plans:

	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans(1)
Equity compensation plans/arrangements approved by the shareholders(2)	1,017,132	\$ 1.44	2,081,969
Equity compensation plans/arrangements not approved by the shareholders	—	—	—
Total	1,017,132	\$ 1.44	2,081,969

(1) In addition to being available for future issuance upon exercise of options that may be granted after September 30, 2015, all shares under the 2011 Equity Incentive Plan may be issued in the form of restricted stock, performance shares, stock appreciation rights, stock units or other stock-based awards.

(2) Includes the 2011 Equity Incentive Plan.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence.

The information required by this Item is incorporated by reference to the Proxy Statement.

ITEM 14. Principal Accounting Fees and Services.

The information required by this Item is incorporated by reference to the Proxy Statement.

PART IV

ITEM 15. Exhibits, Financial Statement Schedules.

(a) 1. Financial Statements.

The consolidated financial statements are listed under Item 8 of this Annual Report on Form 10-K.

2. Financial Statement Schedules.

None. Financial statement schedules are not required under the related instructions.

3. Exhibits.

The Exhibits filed as part of this Annual Report on Form 10-K are listed on the Exhibit Index immediately preceding such Exhibits, which Exhibit Index is incorporated herein by reference.

(b) Exhibits—see Item 15(a)(3) above.

(c) Financial Statement Schedules—see Item 15(a)(2) above.

MAXIMUS, Inc.
INCOME CONTINUITY PROGRAM
(As Amended and Restated Effective September 16, 2015)

Section 1 — Definitions. The following terms shall have the meaning ascribed to them:

- (A) “Applicable Bonus” shall mean the higher of (i) the Target level bonus for the Participant or (ii) the average of the Participant’s actual bonus payments for the previous three full years (or shorter if the Participant has been employed by the Company less than three years).
- (B) “Base Salary” shall mean a Participant’s annual base salary in effect on the date of the Change of Control or the date of termination, whichever is higher.
- (C) “Board” shall mean the board of directors of the Company.
- (D) “Cause” shall mean (i) the Participant’s conviction of a felony, or (ii) either of the following that, in each case, results in demonstrable harm to the Company’s financial condition or business reputation (I) the Participant’s willful malfeasance or misconduct in relation to the performance of his/her duties to the Company, or (II) the Participant’s repeated willful refusal to perform his/her duties.
- (E) “Change of Control” shall mean the occurrence of any one or more of the following:

(a) The “beneficial ownership” (as defined in Rule 13d-3 of the Exchange Act) of securities representing more than twenty-five percent (25%) of the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors (the “Company Voting Securities”) is accumulated, held or acquired by a Person (other than the Company, any trustee or other fiduciary holding securities under an employee benefit plan of the Company or an Affiliate thereof, or any corporation owned, directly or indirectly, by the Company’s stockholders in substantially the same proportions as their ownership of stock of the Company); provided, however, that any acquisition from the Company or any acquisition pursuant to a transaction that complies with clauses (i), (ii) and (iii) of subparagraph (c) of this definition will not be a Change of Control under this subparagraph (a), and provided further, that immediately prior to such accumulation, holding or acquisition, such Person was not a direct or indirect beneficial owner of 25% or more of the Company Voting Securities; or

(b) Individuals who, as of the effective date of this Program, constitute the Board of Directors (the “Incumbent Board”) cease for any reason to constitute at least a majority of the Board; provided, however, that an individual becoming a director subsequent to the date hereof whose election, or nomination for election by the Company’s stockholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board will be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with

respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board; or

(c) Consummation by the Company of a reorganization, merger or consolidation, or sale or other disposition of all or substantially all of the assets of the Company or the acquisition of assets or stock of another entity (a “Business Combination”), in each case, unless immediately following such Business Combination: (i) more than 60% of the combined voting power of then outstanding voting securities entitled to vote generally in the election of directors of (A) the corporation resulting from such Business Combination (the “Surviving Corporation”), or (B) if applicable, a corporation that as a result of such transaction owns the Company or all or substantially all of the Company’s assets either directly or through one or more subsidiaries (the “Parent Corporation”), is represented, directly or indirectly, by Company Voting Securities outstanding immediately prior to such Business Combination (or, if applicable, is represented by shares into which such Company Voting Securities were converted pursuant to such Business Combination), and such voting power among the holders thereof is in substantially the same proportions as their ownership, immediately prior to such Business Combination, of the Company Voting Securities, (ii) no Person (excluding any employee benefit plan (or related trust) of the Company or such corporation resulting from such Business Combination) beneficially owns, directly or indirectly, 25% or more of the combined voting power of the then outstanding voting securities eligible to elect directors of the Parent Corporation (or, if there is no Parent Corporation, the Surviving Corporation) except to the extent that such ownership of the Company existed prior to the Business Combination, and (iii) at least a majority of the members of the board of directors of the Parent Corporation (or, if there is no Parent Corporation, the Surviving Corporation) were members of the Incumbent Board at the time of the execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or

(d) Approval by the Company’s stockholders of a complete liquidation or dissolution of the Company.

However, in no event will a Change of Control be deemed to have occurred, with respect to a Participant, if the Participant is part of a purchasing group that consummates the Change of Control transaction. A Participant will be deemed “part of a purchasing group” for purposes of the preceding sentence if the Participant is an equity holder in the purchasing company or group (except: (i) passive ownership of less than 2% of the stock of the purchasing company; or (ii) ownership of equity participation in the purchasing company or group that is otherwise not significant, as determined prior to the Change of Control by a majority of the nonemployee continuing directors).

- (F) “Code” shall mean the Internal Revenue Code of 1986, as amended, and, as applicable, the regulations promulgated thereunder.
- (G) “Company” shall mean MAXIMUS, Inc., and, after a Change of Control, any successor or successors thereto.

- (H) “Compensation” shall mean the sum of a Participant’s Applicable Bonus and Base Salary.
- (I) “Employee Benefits” shall mean the employee and fringe benefits and perquisites (including without limitation all medical, dental, life insurance, disability and pension (including maximum matching contributions) benefits) made available to a Participant (and his or her eligible dependents) immediately prior to a Change of Control (or the economic equivalent thereof where pension laws prohibit or restrict such benefits).
- (J) “Exchange Act” shall mean the Securities Exchange Act of 1934, as amended.
- (K) “Good Reason” shall mean with respect to a Participant (i) a material decrease (or failure to increase in accordance with the terms of any employment contract) in the Participant’s base salary, bonus opportunity or target long-term equity awards, (ii) a material diminution in the Participant’s authority, duties, or responsibilities, (iii) a material diminution in the authority, duties, or responsibilities of the supervisor to whom the Participant is required to report, (iv) a material diminution in the budget for which the Participant retains authority, (v) a relocation of the Participant’s primary office more than thirty-five (35) miles from its current location, or (vi) the material

breach by the Company of the agreement under which the Participant provides services. If one or more of the above conditions exists, the Participant must provide notice to the Company within a period not to exceed ninety (90) days of the initial existence of the condition. Upon such notice, the Company must be provided a period of thirty (30) days during which it may remedy the condition.

(L) "Participant" shall mean an employee of the Company designated by the Board as an "officer" under Section 16 of the Exchange Act, or any other employee specifically designated as a Participant by the Board, at the time of the Change of Control or when terminated pursuant to Section 3(B) of the Program. Once so designated, a Participant's rights hereunder may not be diminished unless (i) such Participant's position is changed such that he or she is no longer designated as an officer under Section 16 of the Exchange Act in a manner that will not permit him or her to become eligible for any payments hereunder, (ii) the employee's designation as a Participant is specifically eliminated by the Board in a manner that will not permit him or her to become eligible for any payments hereunder or (iii) such Participant's employment with the Company is terminated in a manner that will not permit him or her to become eligible for any payments hereunder.

(M) "Person" shall have the meaning ascribed to such term in Section 3(a)(9) of the Exchange Act and used in Sections 13(d) and 14(d) thereof.

(N) "Program" shall mean this Income Continuity Program, as it may be amended from time to time.

(O) "Severance Payments" shall have the meaning ascribed to such term in Section 4.

(P) "Total Payments" shall have the meaning ascribed to such term in Section 4.

3

Section 2 — Term. This Program shall be effective as of March 21, 2006 and shall continue in effect through December 31, 2009; provided, however, that, commencing on December 31, 2009, and on each December 31 thereafter, this Program shall be automatically extended for one additional year unless, not later than October 31 of such year, the Company provides written notice to each Participant that this Program shall not be so extended. In addition, if this Program is in effect on the date of a Change of Control, then it shall continue in effect for not less than three years following such Change of Control.

Section 3 — Income Continuity. If during the term of this Program

(A) a Participant's employment with the Company is terminated by the Company without Cause, or a Participant resigns for Good Reason, in each case within 36 months following a Change of Control (or, if later, within 30 days after the lapse of the Company's right to cure the condition resulting in Good Reason), or

(B) a Participant's employment with the Company is terminated one year prior to a Change of Control at the request of a party involved in such Change of Control, or otherwise in connection with or in anticipation of a Change of Control.

then in the case of each of clauses (A) and (B) such Participant shall become entitled to the following compensation, benefits and rights, except as otherwise specified by the Chief Executive Officer of the Company with respect to a Participant at the time such Participant is designated as a Participant:

(i) A cash lump sum, payable within ten days following the date of termination, equal to the sum of: (1) any unpaid Base Salary through the date of termination, (2) any bonus earned but unpaid as of the date of termination for any previously completed year, (3) reimbursement for any unreimbursed expenses incurred by such Participant prior to the date of termination, and (4) in the case of the Company's Chief Executive Officer ("CEO"), an amount equal to 300% of his or her Compensation, and in the case of other Participants, an amount equal to 200% of such Participant's Compensation.

(ii) Any unvested Company stock options, restricted stock units or similar equity incentives held by such Participant that are outstanding on the date of termination shall be immediately vested as further described in the terms and conditions applicable to such options, restricted stock units or equity incentives.

(iii) Continued Employee Benefits, at the Company's expense, for such Participant and his/her eligible dependents for a period of 36 months in the case of the CEO and for a period of 24 months in the case of all other Participants following such Participant's date of termination, except where the provision of such Employee Benefits would result in a duplication of benefits provided by any subsequent employer. To the extent that these payments are not exempt from Section 409A under the COBRA, reimbursement, in-kind benefit, or other applicable exceptions

4

thereunder, such payments shall be made at the time and in the amount required under the documents governing each Employee Benefit.

(iv) A lump sum, payable within ten days following the date of termination, equal to \$50,000, which is intended for outplacement and financial planning services.

(v) The amounts specified in Section 4.

(vi) All rights such Participant has to indemnification from the Company immediately prior to the Change of Control shall be retained for the maximum period permitted by applicable law, and any director's and officer's liability insurance covering such Participant immediately prior to the Change of Control shall be continued throughout the period of any applicable statute of limitations.

(vii) The Company shall reimburse a Participant for all costs and expenses, including all attorneys' fees and disbursements, incurred by such Participant in connection with any legal proceedings (including arbitration), which relate to the termination of employment or the interpretation or enforcement of any provision of this Program, where such Participant prevails in such proceeding with respect to at least one material issue. Notwithstanding the foregoing, the Company shall not be obligated to reimburse a Participant for any such costs and expenses in excess of \$500,000. Such reimbursements shall be made no later than the two and one-half months following the end of the calendar year, or if later the Company's fiscal year, during which such Participant prevails in such proceeding with respect to at least one material issue.

(C) In no event will the eligibility, compensation, benefits, and rights described above be decreased within one year before or thirty-six months after a Change of Control.

(D) Each payment made under this Program shall be considered a separate payment for purposes of Section 409A of the Code.

Section 4 — No Excise Tax Gross-Up; Potential Cutback

(A) In the event a Participant becomes entitled to any amounts or benefits payable in connection with a Change of Control (whether or not such amounts are payable pursuant to this Program) (the "Severance Payments"), if any of such Severance Payments are subject to the tax (the "Excise Tax") imposed by Section 4999 of the Code (or any similar federal, state or local tax that may hereafter be imposed), then the total amount payable under this Program to such Participant shall be reduced so that the maximum amount of the Severance Payments (after reduction) shall be one dollar (\$1.00) less than the amount that would cause the Severance Payments to be subject to the Excise Tax; provided, however, that the Severance Payments shall only be reduced to the extent that the after-tax value of amounts received by the Executive after

application of the above reduction would exceed the after-tax value of the amounts received without application of such reduction. For this purpose, the after-tax value of an amount shall be determined taking into account all federal, state, and local income, employment and excise taxes applicable to such amount. In making any determination as to

whether the Severance Payments would be subject to an Excise Tax, consideration shall be given to whether any portion of the Severance Payments could reasonably be considered, based on the relevant facts and circumstances, to be reasonable compensation for services rendered (whether before or after the consummation of applicable Change of Control).

(B) All determinations required to be made under this Section 4 and the assumptions to be used in arriving at such determinations, shall be made by the independent public accountants then regularly retained by the Company (the "Accounting Firm"), which shall provide detailed supporting calculations both to the Company and the Participant. In the event that the Accounting Firm is serving as accountant or auditor for the individual, entity or group effecting the Change of Control, the Company shall appoint another nationally recognized accounting firm to make the determinations required hereunder (which accounting firm shall then be referred to as the Accounting Firm hereunder). All fees and expenses of the Accounting Firm shall be borne solely by the Company.

Section 5 — No Mitigation or Offset. Except as provided in Section 3(iii), a Participant shall not be required to mitigate the amount of any payment or benefit provided for under this Program by seeking other employment or otherwise, nor shall the amount of any payment or benefit provided for hereunder be reduced by any compensation or benefits earned or received by such Participant as the result of employment by a subsequent employer, by retirement benefits, by offset against any amount claimed to be owed by such Participant to the Company or otherwise.

Section 6 — Validity. The invalidity or unenforceability of any provision of this Program shall not affect the validity or enforceability of any other provision of this Program, which other provision shall remain in full force and effect.

Section 7 — Withholding. All payments hereunder shall be reduced by any applicable taxes required by applicable law to be withheld by the Company.

Section 8 — Modification or Waiver. No provision of this Program may be modified, waived or discharged, unless such waiver, modification, or discharge is agreed to in writing and signed by any Participant whose rights hereunder would be adversely affected thereby.

Section 9 — Applicable Law. This Program shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia, without regard to conflicts of laws principles thereof.

Section 10 — No Liability. Neither the Board nor any officer of the Company shall have any liability for any decision made in good faith in interpreting, implementing or operating this Program, including without limitation, any changes made to the definition Good Reason or in identifying the Participants. The Company hereby agrees to indemnify and hold harmless each member of the Board and each officer, for (and in each case, advance) any and all costs and expenses incurred in connection with the administration, operation and implementation of the Program, including without limitation any changes made to the definition Good Reason or in identifying the Participants. No amounts paid under this Section 10 for or on account of any of the foregoing officers or directors shall be included in Compensation under this Program.

Section 11 — Arbitration. A Participant and the Company shall attempt to settle amicably through negotiation any controversy, claim or dispute between the parties arising out of or relating to this Program (a "Dispute"). If a Dispute cannot be settled by such means, the parties agree that it will be submitted to final and binding arbitration before an arbitration tribunal which is, and pursuant to arbitration procedures which are, acceptable to all parties. If the parties cannot or do not otherwise agree within 30 days of the date on which notice of a Dispute is given, any such claim shall be submitted for arbitration by the American Arbitration Association pursuant to the Commercial Arbitration Rules of the American Arbitration Association then in effect. Any arbitration shall be conducted in Virginia. Notice of demand for arbitration shall be provided in writing to the other party. The parties further intend and agree that the final decision or award of the arbitration tribunal shall be binding on the parties and their successors and fully enforceable by any court of competent jurisdiction. The facts and other information relating to any arbitration arising out of or in connection with this Agreement shall be kept confidential to the fullest extent permitted by law. In addition, each party shall bear its own expenses in connection with such arbitration unless otherwise ordered by the arbitrator.

Section 12 — Distributions to Specified Employees. Notwithstanding any provision to the contrary, to the extent the Participant is considered a specified employee under Section 409A of the Code and would be entitled to a payment during the six month period beginning on the Participant's date of termination that is not otherwise excluded under Section 409A of the Code under the exceptions for short-term deferrals, separation pay arrangements, reimbursements, in-kind distributions, or an otherwise applicable exemption, the payment will not be made to the Participant until the earlier of the six month anniversary of the Participant's date of termination or the Participant's death.

Section 13 — Section 409A of the Code. This Program is intended to comply and shall be administered in a manner that is intended to comply with Section 409A of the Code and the interpretive guidance thereunder, including the exceptions for short-term deferrals, separation pay arrangements, reimbursements, and in-kind distributions. The Program shall be construed and interpreted in accordance with such intent. To the extent potential payments could become subject to Section 409A of the Code, the Company shall amend this Program with the goal of providing Participants with the economic benefits described herein in a manner that does not result in such tax being imposed.

Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Richard A. Montoni, certify that:

1. I have reviewed this Annual Report on Form 10-K of MAXIMUS, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Richard J. Nadeau

Chief Financial Officer

Special Considerations and Risk Factors

Our operations are subject to many risks, including those described below, that could adversely affect our future financial condition and performance and, therefore, the market value of securities.

If we fail to satisfy our contractual obligations or meet performance standards, our contracts may be terminated and we may incur significant costs or liabilities, including liquidated damages and penalties, which could adversely impact our operating results, financial condition and our ability to compete for future contracts.

Our contracts may be terminated for our failure to satisfy our contractual obligations or to meet performance standards and often require us to indemnify customers. In addition, some of our contracts contain substantial liquidated damages provisions and financial penalties related to performance failures. Although we have liability insurance, the policy coverage and limits may not be adequate to provide protection against all potential liabilities. Further, for certain contracts, we have posted significant performance bonds or issued letters of credit to secure our performance, indemnification and other obligations. If a claim is made against a performance bond or letter of credit, we would be required to reimburse the issuer for the amount of the claim. Consequently, as a result of the above matters, we may incur significant costs or liabilities, including penalties, which could adversely impact our operating results, cash flows, financial condition and our ability to compete for future contracts.

We are subject to review and audit by governments at their sole discretion and, if any improprieties are found, we may be required to refund revenue we have received, or forego anticipated revenue, which could have a material adverse impact on our revenue and our ability to bid in response to RFPs.

We are subject to audits, investigations and reviews relating to compliance with the laws and regulations that govern our role as a contractor to agencies and departments of the U.S. Government, state, local, and foreign governments, and otherwise in connection with performing services in countries outside of the United States. Adverse findings could lead to criminal, civil or administrative proceedings, and we could be faced with penalties, fines, suspension or debarment. Adverse findings could also have a material adverse effect on us because of our reliance on government contracts. We are subject to periodic audits by state, local and foreign governments for taxes. We are also involved in various claims, arbitrations and lawsuits arising in the normal conduct of our business, including but not limited to bid protests, employment matters, contractual disputes and charges before administrative agencies. Although we can give no assurance, based upon our evaluation and taking into account the advice of legal counsel, we do not believe that the outcome of any existing matter would likely have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Our business could be adversely affected by future legislative or government budgetary and spending changes.

The market for our services depends largely on federal and state legislative programs and the budgetary capability to support programs, including the continuance of existing programs. Many of our contracts are not fully-funded at inception and rely upon future appropriations of funds. Accordingly, a failure to receive additional, anticipated funding may result in an early termination of a contract. In addition, many of our contracts include clauses which allow clients to unilaterally modify or terminate contracts with little or no recompense.

Changes in government initiatives or in the level of government spending due to budgetary or deficit considerations may have a significant impact on our future financial performance. For example, increased or changed spending on defense, security or anti-terrorism threats may impact the level of demand for our services. Many state programs in the United States, such as Medicaid, are federally mandated and fully or partially funded by the U.S. Federal Government. Changes, such as program eligibility, benefits, or the level of federal funding may impact the demand for our services. Certain changes may present new opportunities to us, while other changes may reduce the level of demand for services provided by us, which could materially adversely impact our future financial performance.

If we do not successfully integrate the businesses that we acquire, our results of operations could be adversely affected.

Business combinations involve a number of factors that affect operations, including:

- diversion of management's attention;
- loss of key personnel;
- entry into unfamiliar markets;
- assumption of unanticipated legal or financial liabilities;
- becoming significantly leveraged as a result of incurring debt to finance an acquisition;
- unanticipated operating, accounting or management difficulties in connection with the acquired entities;
- impairment of acquired intangible assets, including goodwill; and
- dilution to our earnings per share.

Businesses we acquire may not achieve the revenue and earnings we anticipated. Customer dissatisfaction or performance problems with an acquired firm could materially and adversely affect our reputation as a whole. As a result, we may be unable to profitably manage businesses that we have acquired or that we may acquire or we may fail to integrate them successfully without incurring substantial expenses, delays or other problems that could materially negatively impact our business and results of operations.

We may be subject to fines, penalties and other sanctions if we fail to comply with laws governing our business.

Our business lines operate within a variety of complex regulatory schemes, including but not limited to the Federal Acquisition Regulation (FAR), Federal Cost Accounting Standards, the Truth in Negotiations Act, the Fair Debt Collection Practices Act (and analogous national and state laws), the United Kingdom Bribery Act, as well as the regulations governing Medicaid and Medicare. If a government audit uncovers improper or illegal activities by us or we otherwise determine that these activities have occurred, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeiture of profits, suspension of payments, fines and suspension or disqualification from doing business with the government. Any adverse determination could adversely impact our ability to bid in response to requests for proposals (RFPs) in one or more jurisdictions. Further, as a government contractor subject to the types of regulatory schemes described above, we are subject to an increased risk of investigations, criminal prosecution, civil fraud, whistleblower lawsuits and other legal actions and liabilities to which private sector companies are not, the result of

which could have a material adverse effect on our operating results, cash flows and financial condition.

If we fail to accurately estimate the factors upon which we base our contract pricing, we may generate less profit than expected or incur losses on those contracts.

We derived approximately 21% of our fiscal 2015 revenue from fixed-price contracts and approximately 44% of our fiscal 2015 revenue from performance-based contracts. For fixed-price contracts, we receive our fee based on services provided. Those services might include operating a Medicaid enrollment center pursuant to specified standards, designing and implementing computer systems or applications, or delivering a planning document under a consulting arrangement. For performance-based contracts, we receive our fee on a per-transaction basis. These contracts include, for example, child support enforcement contracts in which we often receive a fee based on the amount of child support collected. To earn a profit on these contracts, we must accurately estimate costs involved and assess the probability of completing individual transactions within the contracted time period. If our estimates prove to be inaccurate, we may not achieve the level of profit we expected or we may incur a net loss on a contract.

Adverse judgments or settlements in legal disputes could harm our operating results, cash flows and financial condition.

From time to time, we are subject to a variety of lawsuits and other claims. These may include lawsuits and claims related to contracts, subcontracts, employment claims and compliance with Medicaid and Medicare regulations, as well as laws governing debt collections and child support enforcement. Adverse judgments or settlements in some or all of these legal disputes may result in significant monetary damages or injunctive relief against us. In addition, litigation and other legal claims are subject to inherent uncertainties and management's view of these matters may change in the future. Those uncertainties include, but are not limited to, costs of litigation, unpredictable court or jury decisions, and the differing laws and attitudes regarding damage awards among the states and countries in which we operate.

We may incur significant costs before receiving related contract payments which could result in increasing the use of cash and risk of impairment charges.

When we are awarded a contract, we may incur significant expenses before we receive contract payments, if any. These expenses may include leasing office space, purchasing office equipment and hiring personnel. In other situations, contract terms provide for billing upon achievement of specified project milestones. As a result, in these situations, we are required to expend significant sums of money before receiving related contract payments. In addition, payments due to us from government agencies may be delayed due to billing cycles or as a result of failures to approve governmental budgets in a timely manner. These factors could impact us by increasing the use of cash.

In certain circumstances, we may defer costs incurred at the inception of a contract. Such action assumes that we will be able to recover these costs over the life of the arrangement. To the extent that a project does not perform as anticipated, these deferred costs may not be considered recoverable and may need to be expensed.

Many of our projects handle protected health information or other forms of confidential personal information, the loss or disclosure of which could adversely affect our business, results of operations and reputation.

As a provider of services under government health and human services programs, we often receive, maintain and transmit protected health information or other types of confidential personal information. That information may be regulated by the Health Insurance Portability and Accountability Act (HIPAA), the Health Information Technology for Economic and Clinical Health Act of 2009 (HITECH), Internal Revenue Service regulations or similar laws. The loss, theft or improper disclosure of that information could subject the Company to sanctions under the relevant laws, lawsuits from affected individuals, negative press articles and a loss of confidence from our government clients, all of which could adversely affect our existing business, future opportunities and financial condition.

Our systems and networks may be subject to cybersecurity breaches.

Many of our operations rely heavily upon technology systems and networks to receive, input, maintain and communicate participant and client data pertaining to the programs we manage. Although we have experienced occasional attempted security breaches, to our knowledge none of those attempts have been successful. If our systems or networks were compromised, we could be adversely affected by losing confidential or protected information of program participants and clients, and we could suffer reputational damage and a loss of confidence from prospective and existing clients. Similarly, if our internal networks were compromised, we could be adversely affected by the loss of proprietary, trade secret or confidential technical and financial data. The loss, theft or improper disclosure of that information could subject the Company to sanctions under the relevant laws, lawsuits from affected individuals, negative press articles and a loss of confidence from our government clients, all of which could adversely affect our existing business, future opportunities and financial condition.

We obtain most of our business through competitive bidding in response to government RFPs. We may not be awarded contracts through this process at the same level in the future as in the past, and contracts we are awarded may not be profitable.

Substantially all of our customers are government agencies. To market our services to government customers, we are often required to respond to government RFPs, which may result in contract awards on a competitive basis. To do so effectively, we must estimate accurately our cost structure for servicing a proposed contract, the time required to establish operations and likely terms of the proposals submitted by competitors. We must also assemble and submit a large volume of information within an RFP's rigid timetable. Our ability to respond successfully to RFPs will greatly impact our business. There is no assurance that we will continue to obtain contracts in response to government RFPs and our proposals may not result in profitable contracts. In addition, competitors may protest contracts awarded to us through the RFP process which may cause the award to be delayed or overturned or may require the customer to reinitiate the RFP process.

Government entities have in the past and may in the future terminate their contracts with us earlier than we expect, which may result in revenue shortfalls and unrecovered costs.

Many of our government contracts contain base periods of one or more years, as well as option periods covering more than half of the contract's potential duration. Government agencies do not have to exercise these option periods, and they may elect not to exercise them for budgetary, performance or any other reason. Our contracts also typically contain provisions permitting a government customer to terminate the contract on short notice, with or without cause. Termination without cause provisions generally allow the government to terminate a contract at any time, and enable us to recover only our costs incurred or committed, and settlement expenses and profit, if any, on the work completed prior to termination. We may or may not be able to recover all the costs incurred during the start-up phase of a terminated contract. The unexpected termination of significant contracts could result in significant revenue shortfalls. If revenue shortfalls occur and are not offset by corresponding reductions in expenses, our business could be adversely affected. We cannot anticipate if, when or to what extent a customer might terminate its contracts with us.

If we are unable to manage our growth, our profitability will be adversely affected.

Sustaining our growth places significant demands on our management as well as on our administrative, operational and financial resources. For us to continue to manage our growth, we must continue to improve our operational, financial and management information systems and expand, motivate and manage our workforce. If our growth comes at the expense of providing quality service and generating reasonable profits, our ability to successfully bid for contracts and our profitability will be adversely affected.

We rely on key contracts with state and local governments for a significant portion of our revenue. A substantial reduction in those contracts would materially

adversely affect our operating results.

In fiscal year 2015, approximately 52% of our total revenue was derived from contracts with state and local government agencies. Approximately 30% of our total revenue was derived from two customers: the U.S. Federal Government and the state of New York. Any significant disruption or deterioration in our relationship with state and local governments and a corresponding reduction in these contracts would significantly reduce our revenue and could substantially harm our business.

Government unions may oppose outsourcing of government programs to outside vendors such as us, which could limit our market opportunities and could impact us adversely. In addition, our unionized workers could disrupt our operations.

Our success depends in part on our ability to win profitable contracts to administer and manage health and human services programs traditionally administered by government employees. Many government employees, however, belong to labor unions with considerable financial resources and lobbying networks. Unions have in the past applied, and are likely to continue to apply, political pressure on legislators and other officials seeking to outsource government programs. Union opposition to these programs may result in fewer opportunities for us to service government agencies and/or longer and more complex procurements.

We do operate outsourcing programs using unionized employees in Canada. We have experienced opposition from the union, which does not favor the outsourcing of government programs. As a result, we have received negative press coverage as the union continues to oppose our program operations. Such press coverage and union opposition may have an adverse effect on the willingness of government agencies to outsource such projects as well as certain contracts that are operated within a unionized environment. Our unionized workers could also declare a strike which could adversely affect our performance and financial results.

We may be precluded from bidding and performing certain work due to other work we currently perform.

Various laws and regulations prohibit companies from performing work for government agencies that might be viewed as an actual or apparent conflict of interest. These laws may limit our ability to pursue and perform certain types of work. For example, some of our businesses assist government agencies in developing RFPs for various government programs. In those situations, the divisions involved in operating such programs would likely be precluded from bidding on those RFPs. Similarly, regulations governing the independence of Medicaid enrollment brokers and Medicare appeal providers could prevent us from providing services to other organizations such as health plans.

We may lose executive officers and senior managers on whom we rely to generate business and execute projects successfully.

The ability of our executive officers and our senior managers to generate business and execute projects successfully is important to our success. The loss of an executive officer or senior manager could impair our ability to secure and manage engagements, which could harm our business, prospects, financial condition, results of operations and cash flows.

Inaccurate, misleading or negative media coverage could adversely affect our reputation and our ability to bid for government contracts.

Because of the public nature of many of our business lines, the media frequently focus their attention on our contracts with government agencies. If the media coverage is negative, it could influence government officials to slow the pace of outsourcing government services, which could reduce the number of RFPs. The media also focus their attention on the activities of political consultants engaged by us, and we may be tainted by adverse media coverage about their activities, even when those activities are unrelated to our business. Moreover, inaccurate, misleading or negative media coverage about us could harm our reputation and, accordingly, our ability to bid for and win government contracts.

We may be unable to attract and retain sufficient qualified personnel to sustain our business.

Our delivery of services is labor-intensive. When we are awarded a government contract, we must quickly hire project leaders and case management personnel. The additional staff also creates a concurrent demand for increased administrative personnel. Our success requires that we attract, develop, motivate and retain:

- experienced and innovative executive officers;
- senior managers who have successfully managed or designed government services programs; and
- information technology professionals who have designed or implemented complex information technology projects.

Innovative, experienced and technically proficient individuals are in great demand and are likely to remain a limited resource. There can be no assurance that we will be able to continue to attract and retain desirable executive officers and senior managers. Our inability to hire sufficient personnel on a timely basis or the loss of significant numbers of executive officers and senior managers could adversely affect our business.

If we fail to establish and maintain important relationships with government entities and agencies, our ability to successfully bid under RFPs may be adversely affected.

To facilitate our ability to prepare bids in response to RFPs, we rely in part on establishing and maintaining relationships with officials of various government entities and agencies. These relationships enable us to provide informal input and advice to the government entities and agencies prior to the development of an RFP. We also engage marketing consultants, including lobbyists, to establish and maintain relationships with elected officials and appointed members of government agencies. The effectiveness of these consultants may be reduced or eliminated if a significant political change occurs. In that circumstance, we may be unable to successfully manage our relationships with government entities and agencies and with elected officials and appointees. Any failure to maintain positive relationships with government entities and agencies may adversely affect our ability to bid successfully in response to RFPs.

Our clients may limit or prohibit the outsourcing of certain programs or may refuse to grant consents and/or waivers necessary to permit private entities, such as us, to perform certain elements of government programs.

Governments could limit or prohibit private contractors like MAXIMUS from operating or performing elements of certain programs. Within the U.S., state or local governments could be required to operate such programs with government employees as a condition of receiving federal funding. Moreover, under current law, in order to privatize certain functions of government programs, the U.S. Federal Government must grant a consent and/or waiver to the petitioning state or local agency. If the U.S. Federal Government does not grant a necessary consent or waiver, the state or local agency will be unable to outsource that function to a private entity, such as us. This situation could eliminate a contracting opportunity or reduce the value of an existing contract.

We may rely on subcontractors and partners to provide clients with a single-source solution.

From time to time, we may engage subcontractors, teaming partners or other third parties to provide our customers with a single-source solution. While we believe that we perform appropriate due diligence on our subcontractors and teaming partners, we cannot guarantee that those parties will comply with the terms set forth in their agreements or remain financially sound. We may have disputes with our subcontractors, teaming partners or other third parties arising from the quality and timeliness of the subcontractor's work, customer concerns about the subcontractor or other matters. Subcontractor performance deficiencies could result in a customer terminating our contract

for default. We may be exposed to liability, and we and our clients may be adversely affected if a subcontractor or teaming partner fails to meet its contractual obligations.

We face competition from a variety of organizations, many of which have substantially greater financial resources than we do; we may be unable to compete successfully with these organizations.

We face competitors from a number of different organizations depending upon the market and geographic location in which we are competing. A summary of our most significant competitors is included in Item 1 of this Annual Report on Form 10-K under the heading "Competition."

Many of these companies are national and international in scope, are larger than us, and have greater financial resources, name recognition and larger technical staffs. Substantial resources could enable certain competitors to initiate severe price cuts or take other measures in an effort to gain market share. In addition, we may be unable to compete for the limited number of large contracts because we may not be able to meet an RFP's requirement to obtain and post a large performance bond. Also, in some geographic areas, we face competition from smaller consulting firms with established reputations and political relationships. There can be no assurance that we will be able to compete successfully against our existing or any new competitors.

A number of factors may cause our cash flows and results of operations to vary from quarter to quarter.

Factors which may cause our cash flows and results of operations to vary from quarter to quarter include:

- the terms and progress of contracts;
- caseloads and other volume where revenue is derived on transactional volume on contracts;
- the levels of revenue earned and profitability of fixed-price and performance-based contracts;
- expenses related to certain contracts which may be incurred in periods prior to revenue being recognized;
- the commencement, completion or termination of contracts during any particular quarter;
- the schedules of government agencies for awarding contracts;
- the timing of change orders being signed;
- the terms of awarded contracts; and
- potential acquisitions.

Changes in the volume of activity and the number of contracts commenced, completed or terminated during any quarter may cause significant variations in our cash flows and results of operations because a large amount of our expenses are fixed.

We are subject to the risks of doing business internationally.

For the year ended September 30, 2015, 26% of our revenue was driven from jurisdictions outside the U.S. As a result, a significant portion of our business operations are subject to foreign financial, tax and business risks which could arise in the event of:

- foreign exchange fluctuations;
- unexpected increases in tax rates or changes in U.S. or foreign tax laws;
- non-compliance with international laws and regulations, such as data privacy, employment regulations and trade barriers;
- non-compliance with U.S. laws affecting the activities of U.S. companies in international locations including the Foreign Corrupt Practices Act;
- the absence in some jurisdictions of effective laws to protect our intellectual property rights;
- new regulatory requirements or changes in local laws that materially affect the demand for our services or directly affect our foreign operations;
- local economic and political conditions including severe or protracted recessions in foreign economies and inflation risk;
- the length of payment cycles and potential difficulties in collecting accounts receivable;
- unusual or unexpected monetary exchange controls, price controls or restrictions on transfers of cash; or
- civil disturbance, terrorism or other catastrophic events that reduce business activity in other parts of the world.

These factors may lead to decreased revenues and profits and therefore have a material adverse effect on our business, financial condition and results of operations.

Much of our cash is held in jurisdictions outside the United States. If we needed to remit these funds to the United States, we may incur significant taxation expense.

At September 30, 2015, our foreign subsidiaries held approximately \$190 million of cumulative earnings. We consider undistributed earnings of our foreign subsidiaries to be indefinitely reinvested outside of the United States and, accordingly, no U.S. deferred taxes have been recorded with respect to such earnings in accordance with the relevant accounting guidance for income taxes. Should the earnings be remitted as dividends, we may be subject to additional U.S. taxes, net of allowable foreign tax credits. It is not practicable to estimate the amount of any additional taxes which may be payable on the undistributed earnings given the various tax planning alternatives we could employ should we decide to repatriate these earnings in a tax efficient manner. As of September 30, 2015, our foreign subsidiaries held approximately \$59.8 million of cash and cash equivalents.

We may face liabilities arising from divested or discontinued businesses.

During fiscal year 2008, we divested our Security Solutions, Unison, Education Systems, Justice Solutions and Asset Solutions businesses. During fiscal year 2010, we divested our ERP Solutions business. The transaction documents for those divestitures contain a variety of representations, warranties and indemnification obligations. We could face indemnification claims and liabilities from alleged breaches of representations or warranties.

During 2009, we exited the revenue maximization business. Although we no longer provide those services, former projects that we performed for state clients remain subject to federal audits. Our contracts for that business generally provide that the Company will refund the portion of its fee associated with any federal disallowance. Accordingly, we may be obligated to refund amounts paid for such revenue maximization services depending on the outcome of federal audits. In March 2009, for example, a state Medicaid agency asserted a claim against MAXIMUS in the amount of \$2.3 million in connection with a contract MAXIMUS had to provide Medicaid administrative claiming services to school districts in the state. MAXIMUS had entered into separate agreements with the school districts under which MAXIMUS helped the districts prepare and submit claims to the state Medicaid agency which, in turn, submitted claims for reimbursement to the U.S. Federal Government. The state asserted that its agreement with MAXIMUS requires the Company to reimburse the state for amounts owed to the U.S. Federal Government. No legal proceedings have been instituted in that matter. The Company could face similar claims arising from such projects for other state clients.

Our Articles of Incorporation and bylaws include provisions that may have anti-takeover effects.

Our Articles of Incorporation and bylaws include provisions that may delay, deter or prevent a takeover attempt that shareholders might consider desirable. For example, our Articles of Incorporation provide that our directors are to be divided into three classes and elected to serve staggered three-year terms. This structure could impede or discourage an attempt to obtain control of MAXIMUS by preventing stockholders from replacing the entire board in a single proxy contest, making it more difficult for a third party to take control of MAXIMUS without the consent of our Board of Directors. Our Articles of Incorporation further provide that our shareholders may not take any action in writing without a meeting. This prohibition could impede or discourage an attempt to obtain control of MAXIMUS by requiring that any corporate actions initiated by shareholders be adopted only at properly called shareholder meetings.
